### **Watch Your Step With Jefferson Nickels**

Back in 2001, the One Cent coin appeared to be doomed, and the Nickel seemed destined to replace it as our lowest denomination coin in circulation. Arizona Republican Congressman Jim Kolbe introduced legislation proposing the elimination of the Cent and cited that its 99.2% Zinc content and production cost would eventually exceed the coin's face value. Aside from that, Kolbe and his supporters declared the Cent an effectively useless coin since inflation had already rendered it incapable of any appreciable purchasing power by itself. Kolbe's bill did not pass, despite his valid claims about the cost-effectiveness, or lack thereof, in continuing the mintage of the One Cent coin. But when the bill was reconsidered in July of 2006, Copper, Nickel, and Zinc prices had risen to the extent that the "Penny Kill" issue had spilled over in terms of raising serious concern as to whether or not it would be prudent for the government to continue minting the Nickel as well. Since the Nickel is composed of 75% Copper, and Copper/Nickel prices were rising to unprecedented levels, the Nickel just didn't "cut it" anymore as far as covering its metal content and shipment cost. That cost had risen to over nine cents by the Spring of 2007. In 2006, the US Mint implemented regulations to prevent the melting, treatment or exportation of One Cent and Five Cent coins as a way to avoid a shortage of such in circulation. Travelers were limited to taking \$5 in face value of these coins out of the country. Shipments out of the US were limited to \$100.

The Currency Overhaul for an Industrious Nation Act (COIN) included proposals for the elimination of the Nickel. Since the One Cent piece had already been debased from its almost pure Copper content to one of almost pure Zinc back in 1982, the Nickel became the main issue of the debate and target of the proposals to suspend its mintage. While Kolbe's team in the House of Representatives argued convincingly that the government was losing revenue as a direct consequence of One Cent coin production, opponents of the bill argued that the economic benefits of employing the people responsible for the production and distribution of our two most prolifically issued coins (Cents and Nickels) would continue to outweigh the loss in seigniorage relating to their mintage. If that is the case, it remains questionable whether or not this proposition will sustain itself into the future. In the meantime, our One Cent and Nickel coinage remains unscathed by what had been a series of fatalistic debates in our legislature.

Much speculation arose with regard to the hoarding of Nickels in the aftermath of the second attempt to discontinue their mintage, and there are those who claim that this attempt should serve as an indication of a likely future debasement of the Nickel, if not a complete end to its production. To the numismatic community, this may serve as a "nudge" to consider our currently minted Nickels as future collectibles.

The Jefferson Nickel series is approaching seventy-four years of continuous mintage. Other than a few overdate varieties, there are no particularly rare or overly-popularized issues within this series. Nonetheless, there are dates that are most sought-after by collectors and worth noting for acquisition to highlight a well-rounded collection. An avid collector will wish to pursue not only the 1950-D (the

lowest mintage of the series), but also the 1938-D, 1938-S, and the more elusive 1939-D. Add on the 1939-S, 1949-S, 1950, 1951-S, and the 1955 to augment the challenge, since all of these dates have original mintages of less than ten million. For those bent on the most extreme of Jefferson Nickel collecting challenges, these, as well as all dates minted from 1938 to 2003, and from 2006 to the present, may be pursued featuring the highest quality striking characteristics on the reverse so as to accentuate their delicately fine, high-point detail lines of the Monticello's steps. The "Full Step" (FS) designation can be assigned only to those Nickels that distinctly possess at least five steps with end to end continuity along the entire width of the Monticello's staircase. But how many Full Step Jefferson Nickels exist of the dates referred to above in comparison to the multitudes that seem to portray the Monticello as having a wheelchair ramp? We can get an idea of how scarce these Full Step specimens really are by examining their combined certification numbers relating to Professional Coin Grading Service (PCGS) and Numismatic Guaranty Corporation (NGC) population reports. Bear in mind that PCGS makes no distinction between FS Nickels that exhibit five or six step detail, whereas NGC does – by denoting the designation as either FS5 or FS6. For the sake of avoiding excessive technicality, we will combine NGC's FS designation totals.

As most of us who are familiar with US numismatics know, despite the humorous reference, the "FS" that appears on the obverse just below Jefferson's bust of your Uncirculated Nickel doesn't mean you have a Full Step struck piece. Those are the initials of the Jefferson Nickel's designer, Felix Schlag. His initials first appeared on Nickels issued in 1966. Why it took twenty-eight years from the time of this design's debut to finally credit him for his artistry is a mystery. Well, better late than never. Had the Commission of Fine Arts not rejected Schlag's original reverse design model for the Nickel, featuring a more compressed, side angle view of the Monticello that was devoid of any frontal staircase detail, our quest for the best struck Nickels would probably have been made easier for us, perhaps. But who's to say that an alternative design would not have posed similar, if not even more, challenges for today's collector?

A population summation across all grades of these nine key-date Jeffersons in terms of their Non Full Step to Full Step grading ratios is provided herein. Understandably, only those coins in Uncirculated grades, from MS60 or better, stand any chance of showing Full Step detail. In fact, during the course of this research, it had become evident that the lowest grade Full Step Jefferson Nickel reported by either service of these dates is MS62FS (a PCGS 1939-S and a 1950-D) and none graded higher than MS67FS. As is typical with any designation denoting strike quality, most FS Nickels are graded MS65 and higher.

Beginning with the 1938-D, 408 Full Step examples have been reported of the 4,688 graded by both services. For the 1938-S, only 174 of the 2,638 certified acquired the FS designation on their slabs. The astute Jefferson Nickel collector will be cognizant of the two varieties struck by both the Denver and San Francisco Mints in 1939, known as the "Reverse of 1938" and "Reverse of 1940." The certification tallies for these coins will be combined for both issues. To date, a mere 135 FS 1939-D Jeffersons of the 3,029 certified have been reported. The grade breakdown is as follows: 11 in MS64; 34 in MS65; 83 in MS66, and 7 in MS67. The 1939-S FS tally rises to 236, but that is all for the total of 1,988 graded of this issue.

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or 'Raw' (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a 'Raw' coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. First Class postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$70.00 for six months, \$127.00 for one year and \$209.00 for two years. Phone: (310) 515-7369

**1938-S PCGS MS66FS**

**1951-S PCGS MS64**

Many consider the 1949-S to be among the most difficult of the Nickels to find across all grades. Of the 849 1949-S examples certified, only 132 are FS, and for the 1950 date, only 142 FS examples are recorded of the 1,085 specimens graded. Of the 7,249 1950-D pieces certified, PCGS reports 1,641 FS specimens, and NGC reports 420, for a total of 2,061 FS examples in slabs. Still, these numbers reveal that only 28% of the '50-Ds have so far surfaced in FS quality. The 1951-S can claim a mere 122 FS examples amongst its 1,260 combined population total. While this issue has nearly three times the original mintage of the 1950-D, its combined population of FS designated examples is almost seventeen times less. To date, only 27 1951-S MS66FS pieces have been encapsulated (22 by PCGS and 5 by NGC).

As for the final favorite of this series, the 1955 FS has the distinction of having the lowest combined population in the MS65 and MS66 grade categories among the nine dates here cited. Only 72 specimens qualified for the FS designation of the combined total of 957 graded, with 5 at MS63; 31 at MS64 (all by PCGS); just 32 graded MS65; a paltry 3 graded MS66; and a single PCGS MS67FS. In summation, of these 23,743 better-date Jeffersons certified by PCGS and NGC, only 3,509 qualified as Full Step specimens - that's less than 15% of the total population for these issues.

In July of 2006, Heritage sold a 1939-D (Rev. of '40) PCGS MS66 FS for \$2,990. It most recently hammered for \$920 in August of 2010. An ever-desirable "Reverse of 1938" version in the same grade fetched \$7,475 in August 2006, and last sold for \$1,265 in March of 2011. A very pretty 1939-S PCGS MS66FS realized a final hammer price of \$5,404 during a Teletrade session that year in May, and in April of 2011 brought in \$1,093. Between February of 2006 to date, Heritage also reported selling 15 1950-D Nickels grading MS67FS, of which their prices ranged from \$863 to as much as \$17,250. Per-

haps even more impressive is an auction result reported by Teletrade in April of 2006 of a 1951-S PCGS graded MS66FS that realized just over \$3,000. An example most recently sold at retail public auction in June of 2011 for \$2,990. Two additional impressive prices for a Full Step Jefferson Nickel were realized in March of 2007 during a Bowers & Merena session which presented a 1950 in MS67FS and a 1955 example graded MS66FS by PCGS. These very low population specimens went to their highest Bidders for \$11,500 and \$12,650, respectively.

Just as we may recall the "glory days" of the 1960s when we could pick out and salvage 90% Silver content Dimes, Quarters, and Half Dollars from our pocket change and reap in some profit along with the "fun of the hunt," the Jefferson Nickels in our pocket change today may provide similar collectible and intrinsic gain. The reality is that there is no other coin made for circulation today that contains a quantity of metal valued higher than its face value or that has the prospect to rise well above its face value in the future, considering how volatile Copper-Nickel and other base metal prices have been in recent times on the commodities market. In February of 2007, the metal value for each \$2 roll of Nickels exceeded \$3. Late in 2010, there was approximately \$2.90 of Copper/Nickel metal value in a 40 piece Nickel roll that can still be had for its \$2 face value. Along with this prospect is the unconstrained and unrestricted availability of Nickels, not just through our everyday commerce activities, but in roll quantities from any bank. While it is becoming less likely that any key or better date pieces will be found within the most recently wrapped rolls, sifting through some Nickel rolls every now and then may be a fun pastime, and one that may not be possible for much longer. Should base metal prices continue to rise, it won't be long before the Nickel too becomes a casualty of Gresham's Law. Individual pieces, start-up sets, and even rolls of Nickels, such as those belonging to the "Westward Journey" series, were available from the US Mint until just recently and can still be found for small premiums over face value. They provide an educational way for one to whet his or her appetite with US history while accumulating some store of value to pass down to the next generation.

## BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices, "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "cut together"—bring lower prices. Gem roll arise Walking Liberty rolls (particularly the 3-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

# Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

## 8 GREAT REASONS TO JOIN TODAY!

### 12 ISSUES OF NUMISMATIST.

Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

### BORROW THE BOOK BEFORE YOU BUY THE COIN.

The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

### LEARN WHAT THE EXPERTS KNOW!

The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

### SAVE MONEY.

The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

### INSURANCE.

Insure your collection for as little as 50 cents per \$100 of value. Your homeowners' policy can't match the rates or the coverage.

### GRADING AND CONSERVATION SERVICES.

Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

### ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.

Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

### MEDIATION SERVICES.

Mediation for numismatic disputes is available through the ANA.

### The Modern Conundrum

By James Sego

Are modern coins for real? Are they rare, valuable and worthy of their classic numismatic counterparts? First a few definitions, the answers to which are not always straight forward.

#### con-un-drum (kə-'nən-drəm)

- 1 ) a riddle whose answer is or involves a pun
- 2 ) a question or problem having only a conjectural answer
- 3 ) an intricate and difficult problem

The Modern Conundrum could be all three! Before discussing the conundrum we need a definition of what constitutes a modern coin. There is considerable debate as to which coins are modern and which are not. Some argue that any coin minted after 1964 is modern. Some include Franklins as moderns. Others include any series currently being minted. In a broad sense, and from my perspective, modern coins encompass: any coin produced after 1964, including Commemoratives, Bullion coins, American Eagles & Sets; all Lincoln Memorial Cents from 1959 to present; and post 1950 Proof coins. In this broad definition, I would further delineate moderns into two sub-groups.

1) **Contemporary Moderns**, which would include coins produced by the Mint of which virtually all examples are of extraordinary quality.

- Modern Commemoratives from 1982 to present
- All Bullion American Eagles, Buffalos, etc.
- All Satin Finish coins specially produced for collectors and issued directly by the Mint to the collecting public
- All Proof coins produced from 1950 to date

2) **Classic Moderns**, which would include coins made for circulation, of which high-grade examples are seldom encountered. Those would include all circulating coins produced by the Mint (this does not include Proof or Satin Finish).

- |                            |  |
|----------------------------|--|
| • Lincoln Memorial Cents   | • All Sacagawea Dollars                  |
| • Clad Roosevelt Dimes     | • Clad Washington Quarters               |
| • All Kennedy Half Dollars | • All Susan B. Anthony Dollars           |
| • All Eisenhower Dollars   | • Jefferson Nickels from 1965 to present |
| (including 40% Silver)     |  |

With those definitions in hand, let's consider the **Modern Conundrum**. Are modern coins rare, valuable and worthy of their classic numismatic counterparts?

#### THE CASE FOR MODERN COINS

There are many truly rare modern coins; many of which that are statistically rarer, however, sell for multiples less than the classic rarities. Take for example the recently sold 1975 "No S" Proof Roosevelt Dime which auctioned for nearly \$350,000. There are only two known examples of the 1975 "No S" Proof Dime. Compare that to a 1913 Liberty Nickel, of which five examples are known. The most recently sold 1913 Liberty Nickel changed hands for an amount over \$3.7 million - 10 times the value of the modern "No S" Proof Dime, a Dime which has a 60% lower population!

There are other examples of super low mintage coins in the modern genre. One is the 1968 "No S" Proof Dime, of which approximately 25-30 are known. I sold the Discovery Set about three years ago for well over \$35,000. Compare that to the price of an 1894-S Barber Dime with a known mintage of 24. The last sale of an 1894-S Dime was of an amount slightly over \$1,000,000. That's almost 30 times the value of the modern counterpart.

With Classic Moderns there are numerous grade rarities. Eisenhower Dollars provide one example. Only 70 clad Ikes have been graded in MS67 or better at PCGS, and five dates have yet to see a single example graded in MS67 at PCGS. This is a paltry 0.19 percent of all graded clad Ikes. Compare that to Morgan Silver Dollars of which 0.31 percent have been graded MS67. Prices on these modern MS67 examples bring multiples of what common date Morgan MS67s command, and are easily sold to a waiting list of eager customers. There are numerous similar examples across the other Classic Modern series.

Demand is strong for modern coins. Take for example the recently released 25th Anniversary American Silver Eagle Sets. The US Mint announced that only 100,000 Sets would be produced. Two of the five coins in these sets (Reverse Proof and S-Mint) are unique. Thus, two of the five coins have a total mintage of just 100,000, a low mintage by any standard. The initial issue price for a 25th Anniversary Set was \$299.95. The entire issue sold out within six hours and demand pushed prices for Sets up to over \$900 per within a few weeks of the issue date. Yet, they have since come down somewhat in price. However, raw Sets (at the time this is being written) are currently trading for around \$700. That's a handsome 133% return in just 60 days for those collectors and dealers who were able to acquire them from the Mint.

Even within Contemporary Moderns, all coins are not created equally. Many of the low mintage Modern Commemoratives and bullion coins have premiums significantly above their intrinsic Silver, Gold or Platinum value. Examples include:

A 1997-W Jackie Robinson \$5 Gold Commemorative in MS69 which is Bid at \$2,500. By comparison the 1996-W Smithsonian \$5 Gold Commemorative in MS69 is Bid at \$650. The difference? Mintages. There were only 5,174 Robinson's minted, but 9,068 of the Smithsonians.

As an example of a conditional rarity in Modern Silver Commemoratives, consider the 1989-D Congress Bicentennial and 1991-D Mount Rushmore Mint State Half Dollars. Both have similar mintages - 163,753 for the Congress and 172,754 for Mt. Rushmore. However, the Congress in MS70 is nearly twice the price of the Mt. Rushmore coin in the same condition.

2004-W \$50 Proof Platinum Eagles. Only 5,063 of these were minted. As a result these coins sell for a significant premium over other dates in the series.

The 1994 and 1996 \$50 Gold Eagles in MS70 each sell for more than six times of the price of the least expensive MS70 in the series. Clearly these coins are a condition rarity.

## the COIN DEALER newsletter MONTHLY SUPPLEMENT

COPYRIGHT 2012 COIN DEALER NEWSLETTER, A DIVISION OF CDN INC.

Reprint of any issue without permission is expressly forbidden by law.

EXECUTIVE DIRECTOR	Pauline Miladin	PUBLISHER & EDITOR	Shane Downing
MARKET ANALYSTS	Dale Sutton, Derik De Baun	CIRCULATION & ADVERTISING	Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified) but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

As you can see, there are some truly rare modern coins and numerous condition census rarities. Prices of many modern coins seem notably undervalued when the actual numbers of coins minted are compared. Are these coins really undervalued? The bottom line – there is a thriving, robust market for rare, low mintage and desirable modern coins.

### THE CASE AGAINST MODERN COINS

Most modern coins were produced by the hundreds of millions or billions. With these numbers how could they ever be considered rare? Bags and rolls and hoards abound. It is as if there is a never ending supply. Many modern coins have no numismatic premium, even in Uncirculated condition.

One could argue that aesthetic appeal is lacking in modern coins. Modern designs are artistically anemic when compared to Classic Seated Liberty, Barber or the artistic coinage of the early twentieth century. The latter includes some of the most beautiful US coinage ever minted including the Saint-Gaudens Double Eagle and the Walking Liberty Half Dollar.

The metals of modern coins are mostly non precious with no intrinsic value. Clad, Nickel and Copper have very little value. Yes there are Gold and Silver coins in the Contemporary Modern series; however, the majority of them trade at levels very near their intrinsic metal content value. Some of these are low mintage yet still trade at their intrinsic metal content. Examples would include the Presidential Spouse half-ounce .9999 Gold series and the recently issued America The Beautiful 5oz Silver bullion coins.

Most Contemporary Modern coins are produced with impeccable quality and held by collectors in the same condition as mint state. These issues when graded, average MS69 - near perfect, along with many perfect examples. Compare the bounteous supply of exceptional modern coins with classic coins; only a handful of coins in several series have examples grading as high as MS69.

When it comes to price, most MS69 or PR69 examples trade at the same value as their raw counterparts. When it comes to MS70 or PR70 examples, many trade at multiples of their MS69 and PR69 counterparts. Some are certainly rare when it comes to populations; however the difference in quality is normally extremely minimal. Think about it; an MS69 or PR69 coin is by definition virtually perfect. Should one really place a significant premium in the absence of one miniscule mark on an otherwise "perfect" coin?

### PRICE VALUE AND GRADING SERVICES

True value (price) is a blend of rarity (how many exist), condition (what grade is it), and demand or popularity (how many people care). Compare Liberty Seated Silver Dollars to Morgan Silver Dollars, and you see very quickly that demand for Morgans drives price, even though virtually all dates are in plentiful supply in almost any condition. With moderns it's no different. Lincolns and the larger coins are those in the greatest demand, and supply of high-grade coins is certainly minimal.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. First Class postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$70.00 for six months, \$127.00 for one year and \$209.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

**the COIN DEALER Newsletter**

P.O. Box 7939 • Torrance, California 90504

www.greysheet.com • cdn@greysheet.com

There is a significant difference in the marketplace for comparably graded coins by the various grading services. The two major services (PCGS and NGC) account for the bulk of modern graded coins, yet there may be significant variations in values of coins they grade, particularly in the MS/PR70 condition and for condition census grades. Both services have set registries, allowing collectors to compare their collections to others. These set registries have put significant demand pressure on the "top pop" coins. In most modern series, the value of PCGS "top pop" coins is quite a bit higher than the NGC counterpart. My experience is that PCGS is a fraction tougher on moderns than NGC, and that difference is reflected in values.

### MY PERSONAL PERSPECTIVE

There is no way to argue with rarity, demand and price. I believe that true rarities, whether in classic or modern coinage, will continue to be in strong demand for many years. The Mint certainly isn't making more 1975 "No S" Dimes or 1895 Morgans. Yes, more condition census moderns will be graded in future years. However, at the current price levels, if high-grade coins were "easy" to make, then one could argue that more coins would have already been made. The relative population levels of condition census coins have remained relatively constant to the overall number of coins graded.

When it comes to the Contemporary Modern coins, I always ask clients this question: what is the difference between a 69 and a 70? They look at me with a blank stare, until I tell them the answer...it's the price. The next question is: do you really want to invest heavily for an almost imperceptible difference in quality? I will certainly sell clients 70s if they want them, with the caveat that they may not represent the best long-term investment.

As with any coin, always buy the coin and not the holder. That applies to all classifications of coins. Buy coins you like and want to collect. If they go up in value consider yourself fortunate; if they go down in value, at least you'll enjoy owning them.

### CONCLUSION

There is certainly considerable debate about modern coins and their value. One can clearly argue both sides. What is undeniable, is that truly rare and valuable coins were produced by the Mint after 1965. There are also numerous condition census coins that carry a huge premium. Time will tell us the answer to the modern conundrum. My bet is that most of the truly rare modern coins, whether absolute rarities or condition census coins will continue to increase in value as more collectors realize their true rarity.

## BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50s tend to be dark - these bring lower prices, "gem" full steps" rolls (when available) bring higher prices. In the Mercury series "gem, full bands" rolls are worth more than listed prices - particularly the pre-1941 issues. Washington rolls - dull or "out" rolls bring lower prices. Goodrich & Co. trading Liberty rolls (particularly the 3-mint issues) are worth more than listed prices. 1953-59 singles are found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

# Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

## 8 GREAT REASONS TO JOIN TODAY!

### 12 ISSUES OF NUMISMATIST.

Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

### BORROW THE BOOK BEFORE YOU BUY THE COIN.

The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

### LEARN WHAT THE EXPERTS KNOW!

The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

### SAVE MONEY.

The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

### INSURANCE.

Insure your collection for as little as 50 cents per \$100 of value. Your homeowners' policy can't match the rates or the coverage.

### GRADING AND CONSERVATION SERVICES.

Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

### ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.

Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

### MEDIATION SERVICES.

Mediation for numismatic disputes is available through the ANA.

Join by phone, 800-514-COIN (2646),  
or online at [www.money.org](http://www.money.org)

### History Of The Trade Dollar

By Kathleen Duncan

Until the 1850s, Americans spent most of their history looking towards the East Coast and Europe. Thereafter, we began to explore the strategic and economic importance of developing the West Coast and maintaining shipping routes from there to the Far East. The problem for U.S. merchants was that China preferred the higher Silver content of the Mexican Peso, also called the Eight Reale. Seated Liberty Dollars were reluctantly accepted at a discount and most subsequently melted. To compete efficiently, American bankers and merchants often imported Pesos, paying a premium of 7.5% over bullion value to acquire them. The concept of a special "commercial" Dollar of greater Silver content that would facilitate Asian trade was born from this hurdle.

Minted for circulation from July, 1873 until April, 1878, the Trade Dollar represents one of the shortest-lived of all United States numismatic series. Across all dates and mintmarks, nearly 36 million were produced. However, due to heavy circulation within Asian markets, frequent counterstamping with Chinese characters, or chop-marks (merchants in Asia stamped the Dollars with Chinese characters to attest to their weight and fineness, allowing them to be confidently accepted at face value), and melting, nearly every issue is elusive in MS65 and finer conditions. Proofs, with the exception of the later Proof-only issues, are also rare in Gem and better.

Besides its commonly known purpose as a United States coin to compete with the Mexican "Dollar", the Trade Dollar had a lesser known, but equally imperative role. The politically important mining interests needed a new outlet for the huge supply of Silver glutting the world market. In the years during and after the Civil War, the Comstock Lode and other Western mines were producing large quantities of Silver. For a time, miners found outlets in foreign markets. Canada, Latin America and Europe all absorbed significant quantities during the 1860s. But after Prussian Chancellor Otto von Bismarck united Germany in 1871 and subsequently placed it on a Gold standard, Silver was dumped onto the international market.

As supplies escalated, prices plummeted. Under a long-standing law, Silver could be deposited with the U.S. Mint for conversion into Silver coins, for which it could then be exchanged. Miners invariably chose Silver Dollars, the one denomination that hadn't been changed when all other Silver coins experienced a reduction in weight in 1853. As a direct result, Silver Dollar mintages soared above one million in 1871 and 1872. The Coinage Act of 1873 (a.k.a. the Crime of '73) put a stop to this by suspending production of Silver Dollars. Mining interests were placated by the approval of the new Trade Dollar that would provide an outlet for their metal and hopefully open it up to new Asian channels.

In addition to providing a green light for the Trade Dollar, the Act of February 12<sup>th</sup>, 1873 abolished the Two-Cent piece, the Three-Cent

Silver, the Half Dime and the Seated Dollar. Due to the declining price of Silver, weights were again reduced on the Dime, Quarter and Half Dollar as they had been twenty years prior. A rider on the bill made Trade Dollars legal tender, but only up to \$5. In other words, no more than five could be spent at one time. As they weren't intended to circulate in the States, this must not have been considered a potential problem at the time, but would soon prove to be. At that time, the bullion value of a Trade Dollar averaged \$1.02.

During the first two years of production, the vast majority of Trade Dollars were shipped to the Orient. In 1875 and early 1876 more were used in the States. A further decline in the price of Silver in 1876 caused millions of Trade Dollars to return to the U.S. from China, leading Congress to demonetize the issue entirely. This was the first and only time the U.S. government revoked the legal tender status of any of our nation's coinage. After 1876, Trade Dollars could not legally be spent at face value; their value fluctuated in the metals market.

Although coinage was intended solely for export to the Orient, generous numbers eventually found their way into domestic commerce. In 1877 Secretary of the Treasury John Sherman directed that Silver deposited for coinage into Trade Dollars would only be paid upon evidence that it would be exported. Evidence, sadly,

was in some instances fabricated. Profiteers sold some of these "commercial" Dollars to unscrupulous employers who used them to pay their workers. One-sixth to one-fifth of these salaries were lost when the coins were redeemed, creating serious public discontent.

This was the beginning of the end and on February 22, 1878, John Sherman mandated the end of production with his Sherman Silver Act. By this time Philadelphia had produced no business strikes, only Proofs. Almost simultaneously, on February 28, 1878, the Bland Allison Act directed the government buy vast quantities of Silver at subsidized prices to be coined exclusively into Morgan Dollars. Proof Trade Dollars were issued for an additional five years in mintages that

ranged from 960 to 1,987.

It wasn't until 1887 that the public was allowed to redeem them again at face value. All told 35,958,460 Trade Dollars were produced; 20,327,910 after they were demonetized on July 22, 1876. Of the grand total coined from 1873 to 1878 all were exported except for 6,607,632 pieces. 82% served their intended purpose as items for international commerce.

### Collecting Insights

The Trade Dollar's design is widely considered an attractive upgrade to Gobrecht's Seated Liberty on which it was loosely based. William Barber's graceful Liberty is seated on bales of merchandise, facing westward. In her right hand she holds an olive branch which she extends to the West, while a ribbon inscribed with "Liberty" appears in her left. The 13 stars of the original colonies surround the upper obverse rim and waves representing the Pacific Ocean appear in her background. The reverse depicts an eagle with wings outspread above the coin's prominently displayed weight and fineness,

Reprint of any issue without permission is expressly forbidden by law.

EXECUTIVE DIRECTOR	Pauline Miladin	PUBLISHER & EDITOR	Shane Downing
MARKET ANALYSTS	Dale Sutton, Derik De Baun	CIRCULATION & ADVERTISING	Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. First Class postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

**INVESTORS NOTE:** The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee. **Subscription Information:** A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$70.00 for six months, \$127.00 for one year and \$209.00 for two years. Phone: (310) 515-7369

420 GRAINS, 900 FINE. The inscription UNITED STATES OF AMERICA and TRADE DOLLAR surrounds.

**1873:** More than any other U.S. design, the Trade Dollar was a product of the western Mints. Although production began at Philadelphia, the largest number of dies was sent to San Francisco where the majority of deposits were expected. The locale was also favored as the closest Mint to the Orient. Trade Dollars first reached China in October, 1873, where they were positively received. Nearly the entire production of 1873 went to that country.

Although first-year examples typically experience collector hoarding, the scant availability in the states at the time of production has made high-grade examples particularly elusive. Even the 1873-S was exported nearly in its entirety and most of the production was melted in either China or India insuring few returned back home. It is the rarest of all the San Francisco business strikes. The 1873-CC is one of the top rarities in the series. Although both PCGS and NGC record a coin each in MS65, no recent trades can be found in auction. The most recent trade for a PCGS MS64 was \$46,000 in January of 2007. 1873 also has the honor of being the rarest issue from the official eleven year Proof run (1873-1883).

**1874:** In this year the Philly Mint experienced its highest production until 1877, although survivors in Gem are still obscure. The 1874-CC is one of the rarest issues in the series in high Mint State grades. The last recorded auction price realized for an NGC MS65 was \$37,375 in September of 2008. Combined population in MS65 between PCGS and NGC is 5. The 1874-S is available in most conditions up to Gem. 1874 Proofs are exceptionally scarce and only slightly more available than 1873 Proofs.

**1875:** A new reverse hub was put into use. Proof and business strikes exist from both old and new hubs. Type I has a berry below the eagle's claw; the Type II lacks it. The Type I is considerably scarcer among the surviving 1875-S population and nearly all Mint State examples known are of the I/II Type. 1875-S saw a record production of 4,487,000. The 1875 Philadelphia issue, however, saw a paltry mintage of 218,200 making it the scarcest among all of the Philly issues. The 1875-S/CC is the rarest of the regular issues in the series and the only overmintmark.

**1876:** In 1876 there was an obverse hub change. The Type I is distinguished by the ends of the ribbon (held by Liberty) pointed to the left. The Type II obverse has the ribbon pointing down. This is the most plentiful Philly issue available. It was also the beginning of widespread use of the Trade Dollar domestically. Although the San Francisco Mint saw record production as well, the 1876-CC is the third rarest regular striking in the series. This year also produced a highly popular 1876-CC Doubled Die Reverse variety. The reverse shows dramatic doubling on the eagle's left wing (on the right side of the coin), the branches, berries, leaves and much of the lettering, making it one of the strongest and widely spaced doublings known

in any series. Finding one is not easy, however, as few have been graded in any condition, and none higher than MS64.

**1877:** The 1877-S was the highest production issue of the series, making it "relatively" common in Mint State, particularly at the lower levels. It is also the most common in all circulated grades, including chop-marked examples. All are Type II/II. Like all of its Carson City brethren, the 1877-CC is scarce in all grades and particularly Mint State. PCGS and NGC each show one MS65 example, the most recent auction trade being for a PCGS coin that brought \$69,000 in November of 2005.

**1878:** The 1878-S saw the second highest mintage for the series at production of over 4 million. Conversely, no coins were produced at all in Philadelphia that year and the 1878-CC has by far the lowest mintage of the series at 97,000 coins. Additionally, a good portion were melted shortly after striking, making it the second rarest issue in uncirculated grades, after only the 1875-S/CC. PCGS and NGC have each pronounced exactly one coin MS65, and the last trade was an NGC example selling for \$143,750 in January of 2007.

**The 1884 & 1885 Proofs:** These issues are two of the most coveted in the entire numismatic kingdom. They were produced secretly at the Mint and provide an interesting addendum to the series. Although there is an official record of dies having been made for 1884, no production is listed for either date and no specimens were given to the Mint Collection following normal Proof procedures.

These issues were generally unknown to the collecting community until John W. Haseltine announced he had found the coins in the 1884 and 1885 Proof sets owned by his father-in-law, William Idler's estate. Idler was known to have had close ties to Mint personnel. Virgil Brand was the principle buyer after these coins were disclosed.

Absent official records, it is uncertain how many were produced, but only 10 1884s and 5 1885s are known. Both are among the most valuable of all numismatic rarities. In November of 2005 an 1884 PCGS PR65 example, the highest graded of the date, sold for \$603,750. In November of 2004, an 1885 NGC PR62 sold for \$1,006,250. The highest recorded grade for this date is an NGC PR63 Cameo (which may or may not be the coin that sold as a PR62 above).

Mintages ranged from a low of 97,000 for the 1878-CC to a high of more than 9 million for the 1877-S. The series includes 18 regular issues and 11 Proofs (not counting the 1884 and 1885) making it a reasonable but not insurmountable challenge for collectors. Its intricate design and large size are intrinsically appealing to most, while its history places the United States on the precipice of becoming a major world power. This is a series that can provide years of satisfying exploration and collecting.

# We Invite You to Consign U.S. AND WORLD COINS AND CURRENCY

*We would like to sell your coins and currency to the highest bidders in an upcoming Stack's Bowers Galleries auction!*

## Stack's Bowers Galleries Upcoming Auction Schedule

Date	Auction	Consignment Deadline
Mar 19-24, 2012	<b>Stack's Bowers Galleries</b> Official Auction of the Whitman Coin & Collectibles Baltimore Expo Baltimore, MD <i>U.S. Coins and Currency</i>	Closed

## BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 90s tend to be dark—these bring lower prices. "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the CDN.

# Gold Hitting Record Highs & Expected to Continue

## GET THE ONLY AWARD WINNING\* *personal* GOLD GUIDE. *your* FREE [ PLUS FREE SHIPPING ]

### If you don't own gold, it's not too late.

With gold increasing over 500%\*\* since 2000, imagine the position you'd be in today looking at those numbers if you had owned a large amount of gold over the last 10 years. Now look at the next 10 years - many analysts recommend 5% - 25% of your total portfolio be in physical gold and they expect gold to continue its climb to \$2,000 per oz. and beyond!

Compiled by market analysts & award winning gold experts, get the comprehensive insights you need to confidently diversify, strengthen, & secure your portfolio with gold.

# Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

## 8 GREAT REASONS TO JOIN TODAY!

### 12 ISSUES OF NUMISMATIST.

Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

### BORROW THE BOOK BEFORE YOU BUY THE COIN.

The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

### LEARN WHAT THE EXPERTS KNOW!

The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

### SAVE MONEY.

The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

### INSURANCE.

Insure your collection for as little as 50 cents per \$100 of value. Your homeowners' policy can't match the rates or the coverage.

### GRADING AND CONSERVATION SERVICES.

Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

### ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.

Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

### MEDIATION SERVICES.

Mediation for numismatic disputes is available through the ANA.

### INCUSED INDIANS

#### *Just A Few Stoppers*

We are all familiar with them and appreciate their almost iconic beauty as much as their scarcity. Quite often, they may even be flaunted by those who revere and wear them as center-pieces in jewelry. They can also be somewhat misunderstood and as criticized and shunned today as they were when they were first struck and released for circulation 104 years ago. Like them or not, the incused Indian Head Quarter Eagles and Half Eagles designed by the Connecticut-born, Yale University School of Fine Arts graduate and instructor, Bela Lyon Pratt, are monumental contributions to our numismatic heritage.

Not many other coins have ever stirred up so much controversy as these in terms of not only their design, but of their practicality and necessity as well. Conceived as part of a new American aesthetic movement espoused by President Theodore Roosevelt, who specifically proclaimed his intention to radically improve the artistic qualities of our coinage during his administration, the new Quarter and Half Eagles of 1908 shocked and awed the public-at-large as no others. This was mostly due to their depiction of what many consider to be a truly raw, stern, even a bit sardonic looking Native-American with full, ornate head gear, unlike that on any previous coinage issue, combined with a most avant-garde die preparation process incorporating recessed, below-the-field device detail on both the obverse and reverse. The early 20th century traditionalists sneered at these coins as much as they did at the sight of an early cubist-style Picasso painting, while the progressive-modernists embraced them as the epitome of creative imagination.

Among the most qualified, perhaps, to critique these coins upon their initial release were various art scholars and numismatists of the day. One prominent Philadelphia numismatist expressed his unflattering opinions about them in a letter he had written and addressed to Roosevelt that was published in the February, 1909 issue of *The Numismatist*. In it, he described the Indian's depiction on the coins' obverses with words such as "emaciated," "crude," and "hard," apparently comparing Pratt's Indian conception with that of James B. Longacre's adorning the Indian Head Cent, considered by many as an almost idealized, Caucasian-featured feminine profile with Indian head gear. Some critics denounced Pratt's coins as hygienically unsafe, going so far as to claim that the bacterial residue that may entrap itself within their recesses could cause unsanitary harm, even the spread of disease. This latter claim was later invalidated as a mere exaggeration and scientifically disproved. Pratt and his supporters, nonetheless, reacted to the scornful comments about

the coins with vehemence and eloquent arguments in defense of their design, implying that the grim appearance of the Indian was reflective of the reality of the Native American culture's unkind history and future prospects, thereby transforming controversy into an almost sympathetic popularity and wide-spread appeal for these Gold pieces.

One argument among those who disapproved of the coins, however, proved credible. Because of the recessed detail striking, these coins tended not to hold up to circulatory wear as gracefully as others. There is no high-point or an edge

rim on either side of the coins to deflect friction away from their fields, causing rapid obfuscation of the luster and a reduction of their contrast at a much faster rate than on coins with normally raised device detail and edge rim. However, when observing one of these specimens in high-grade, fully-lustrous, Mint State condition, they are among the most alluringly beautiful of all U.S. Gold coins.

Choice and Gem quality Mint State specimens of both denominations and of virtually each issue year have been appearing at auctions and at shows with a fair amount of frequency. The earliest issues in Mint State are quite prevalent, possibly due to the fact that, aside from their unusualness, many of these coins were immediately hoarded and saved during the early years of release in the aftermath of the 1907 panic. The availability of such specimens still allows for an opportunity to assemble a complete set of each denomination in Mint State with reasonably less difficulty compared to the other U.S. Gold coin series. Even among the shortest of series, we can expect some "stoppers" of both the \$2½ and \$5 denominated issues that pose considerable challenges to this quest.

#### QUARTER EAGLE

To own a 1911-D \$2½ Indian Gold piece, in any grade, can too often be just a dream for most collectors. With the lowest mintage of the series at only 55,680, this key-date remains among the most popular of classic American coins. It is the only issue of the \$2½ series that truly poses financial challenges for collectors across all grades, even though its availability is not all that restricted since they often appear at large coin exhibit venues. Nonetheless, XF40 specimens are Bid \$3,150 and MS60 examples are Bid \$7,300. Of the slightly more than 8,000 specimens certified by Professional Coin Grading Service (PCGS) and Numismatic Guaranty Corporation (NGC), a bit more than half of them (4,130) are included among the ranks receiving Mint State designations. The bulk of these specimens are graded MS62 by either service, while only ninety-seven attained the grade of MS65. A specimen of this grade, certified by PCGS, most recently sold in January through a Goldberg auction for \$55,200.

Perhaps a more feasible alternative to a 1911-D, although still quite challenging in terms of cost, is the 1914 Quarter Eagle

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or 'Raw' (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market, such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a 'Raw' coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. First Class postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$70.00 for six months, \$127.00 for one year and \$209.00 for two years. Phone: (310) 515-7369

This tough semi-key, with a rather sparse mintage of just 240,117, is the scarcest of the Philadelphia Mint's production within this series. PCGS and NGC certified 10,451 specimens, of which 7,529 qualified for Mint State grades, a rather high percentage of the total population. Again, most of these Mint State graded specimens fell into the MS62 category (3,165), but the number of specimens within the Gem category is even a bit smaller than that for the 1911-D. To date, only ninety-four 1914 Quarter Eagles acquired the grade MS65, one of which graded by PCGS with CAC (Certified Acceptance Corporation) approval was most recently sold by Heritage Auction Galleries during this past 2012 FUN Show for \$48,875. There are only six specimens known to have graded higher. A single PCGS MS67 specimen is recorded, which last sold at auction in March of 2010 during the American Numismatic Association (ANA) Money Show in Fort Worth for \$103,500.

## HALF EAGLE

The Denver Mint also produced another rarity in 1911 – the Half Eagle rendition of Pratt's work. The 1911-D \$5 piece, with an original mintage of just 72,500, shares the distinction with its \$2½ peer as being among the numismatic icons. Mint State specimens graded from MS60 to MS64 by either service number only 324. But, if you're not content with a coin assigned any of those grades, you may feel a bit daunted attempting to pursue one grading any higher since only four MS65 specimens are certified as such. A single, unique PCGS MS65+ specimen, approved by CAC, last sold during the January 2011 FUN convention for \$299,000.

If pursuing a Mint State example of a 1911-D of either denomination isn't challenging enough for you, you may embark upon a quest for "the holy grail" of the incused Indian Gold series: the 1909-O Half Eagle. The New Orleans Mint outdid Denver in terms of striking a rarity in every sense of the word, minting just 34,200 pieces for just this one year and just before getting out of the coin minting business altogether that same year. Perhaps, due to this fact, the 1909-O Half Eagle acquired a certain historic lore over the years as the last of the greatest of coins ever produced there. The 183 Mint State pieces that have been graded by PCGS and NGC allow for some of only the most fortunate of collectors to behold one. MS61 examples are among the most prevalent of the Mint State examples available, with a combined pop of 82. However, these specimens are easily fetching prices in the upper five-digit figures at shows and auctions. Most

recently, an MS60, graded by NGC, sold this past March for \$25,300 during Heritage's Signature Auction in New York, and the most pristine example, a single PCGS MS66, realized \$690,000 in its most recent outing during the January 2011 FUN convention. But don't fret. There's opportunity for you to acquire one of the other twenty-two in MS60, forty-four in MS62, thirteen in MS63, sixteen in MS64, and, if well enough endowed with cash, one of the four graded MS65.

We should not overlook one more serious challenge to the incused Indian Gold collector: the 1929 Half Eagle. As many as 662,000 pieces were struck that final year of issue after a thirteen year suspension of Half Eagle production, but somehow, not even 1% — only 532, in Circulated and Uncirculated grades, have so far been certified at PCGS and NGC. Why is that? Well, we can safely assume, if referring to our history

books, that the Gold melting pot played a major role in reducing the number of these pieces as the financial austerity measures were already underway in reaction to the stock market crash that year. The miniscule amount of Half Eagles released into circulation are believed to have been so by error as virtually every other denomination of Gold coin issued that year, mainly the \$20 Saint-Gaudens Double Eagles, were melted down after leaving the Treasury vaults. As scarce as the 1929 Half Eagles are due to such circumstances, they, along with the more readily available Quarter Eagles, are among the most accessible of U.S. Gold coins of this issue year and are revered by a few fortunate collectors who own them as legacies of the dawning of one of America's harshest periods.

The January 2011 FUN convention also featured the most recent auctioning of a PCGS MS65 1929 Half Eagle by Heritage, which realized \$86,250. This was impressive, but not quite enough to be considered an astounding record-breaker. That is because such specimens are not known to be of such condition rarity as some of their previously mentioned peers. As one might speculate, a high percentage of the few 1929 Half Eagles are available in Mint State, and most likely were stored away for many years in hidden places. PCGS and NGC graded 484 Mint State pieces, ranging from MS60 to MS65. Interestingly, 176 are graded MS64 with fifteen MS65 specimens reported. This relatively higher-quality skewed tally suggests that those who originally possessed these Half Eagles must have taken particular care to preserve them while subjecting them to minimal handling, likely due to expectations that they someday would become valuable heirlooms. They were so right!

- Rare Date Certified Coins

## Bullion Trading - Gold, Silver, Platinum, Palladium

As a national *market maker*, we trade live positions on all major products in gold, silver, platinum, and palladium. Two way markets are made Monday thru Friday on all Comex trading days. Our services are not limited to bullion trades alone. We handle Certified Coin Exchanges on PCGS and NGC certified coins.

Our clients include coin dealers, banks, investment firms, mints, refineries, governments and private collectors.

Items available for immediate delivery are fully insured and shipped daily through Brinks, Garza, Loomis, FedEx and UPS to your street address. You may also take delivery of your order at our secure office facility in Northern California. Commonly traded items include but not limited to: Gold Eagles, Krugerrands, Philharmonics, Maple Leafs, Pamp Suisse Bars, China Panda's, Kilo Bars, Silver Eagles, Maples, Rounds, Bars and bags of 90% Coin.

If you are interested in selling or buying, give us a call today!

# Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

## 8 GREAT REASONS TO JOIN TODAY!

### 12 ISSUES OF NUMISMATIST.

Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

### BORROW THE BOOK BEFORE YOU BUY THE COIN.

The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

### LEARN WHAT THE EXPERTS KNOW!

The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

### SAVE MONEY.

The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

### INSURANCE.

Insure your collection for as little as 50 cents per \$100 of value. Your homeowners' policy can't match the rates or the coverage.

### GRADING AND CONSERVATION SERVICES.

Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

### ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.

Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

### MEDIATION SERVICES.

Mediation for numismatic disputes is available through the ANA.

Join by phone, 800-514-COIN (2646),

### Insider's View Of The So-Called Dollar Market

By Jeff Shevlin

So-Called Dollars are US medals approximately the size of a Silver Dollar that were struck to commemorate a historical event. They were cataloged in the So-Called Dollar book authored by Charles Kappen and Harold Hibler in 1963 which was reprinted in 2008. So-Called Dollars differentiate themselves from typical coinage in that their designs usually have significantly more detail and higher relief. Private mints as well as the US Mint and mint employees William Barber, Charles Barber, George Morgan, Augustus Saint-Gaudens and others designed and struck So-Called Dollars. Medals from the mid to late 20th century generally have a simple design with low relief and were likely struck from a modern coin press. Earlier So-Called Dollars are bigger, thicker, usually of higher relief and were struck from hard engraved dies on a more powerful medal press. Dick Johnson examined the differences between earlier art medals and later coin medals and the presses used to create them in a recent article published by TAMS, the Token and Medal Society. Expositions that were held throughout the United States were often open to the public for months and sometimes for a year or more. The US Mint had a presence at many of the expositions, often setting up their presses and striking souvenir medals to sell to the attendees. The medals designed by the US Mint were always designated as the official exposition medal and were usually struck in a variety of metals including Silver.

Inexpensive, more common and readily available material which includes common pieces in relatively high grade is down 15% - 25% these past few years. The official medal from the 1893 Columbian Exposition HK 154 is a very common piece which was selling in the \$50 range for a CH BU and today trades for \$35-\$40. 1906 Silver Pikes Peak Centennial Exposition medals have dropped from the \$135 range for a CH BU and now go for under \$100. There are approximately 1,000 different varieties of So-Called Dollars of which about half are relatively common and readily available. Approximately half of the So-Called Dollars struck are associated with an exposition; the other half are associated with a historic US event. Fairs and international expositions played a significant part in the early development of the United States. The Columbian Exposition held in Chicago in 1893 drew almost 30 million visitors. Having traveled for days, and sometimes weeks to arrive at the exposition, visitors often stayed for several days to several weeks. The 1915 Panama Pacific International Exposition was held in San Francisco and had almost 20 million in attendance.

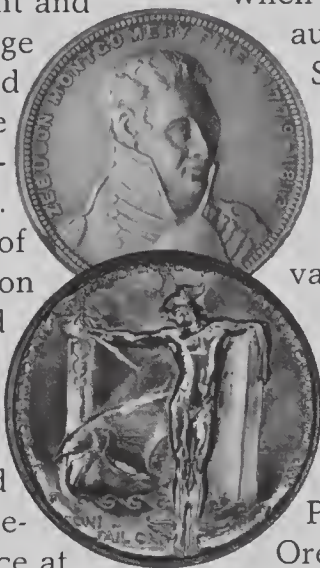

The middle tier market which includes medals that traditionally sell in the \$200 - \$1,000 range is solid; sales are steady with

some upward pressure on many of those pieces that are seldom encountered. These medals are relatively scarce and can usually only be found at the largest national or regional coin shows such as the ANA, FUN, Baltimore and Long Beach. Advanced collectors and dealers attend these national shows hoping to locate the scarcer varieties. The official medal from the Panama Pacific International Exposition HK 399 struck in Silver by the US Mint and designed by Robert Aitken has remained steady in the \$500 - \$800 range in CH BU. NGC, ANACS and ICG are grading So-Called Dollars, and generally collectors prefer certified examples when purchasing these scarcer, more valuable pieces. PCGS does not grade So-Called Dollars, but in the past few years occasional rumors have indicated they may be considering it.

Demand for the rarer more expensive medals that sell in the \$1,000 range or more is up significantly. Competition is fierce when rare, seldom offered for sale So-Called Dollars appear in auction. At the 2010 Chicago ANA Convention during the So-Called Dollar auction conducted by Jeff Shevlin, an unlisted Silver Louisiana Purchase Exposition Good-Luck Dollar sold for \$3,795 on a pre-sale estimate of \$1,500 - \$2,000. The 1892 King Cotton Carnival Mardi Gras medal HK 626, struck in Bronze, graded NGC 65BN and valued at \$400 - \$1,200 went for \$3,795 in auction. The finest known 1861 Bombardment of Fort Sumter medal HK 11C struck in Copper and graded NGC 65RD sold for \$3,670 on a pre-sale estimate of \$2,000. A Thomas Elder medal struck in 1908 HK 812B NGC 64 sold for \$3,415 on a pre-sale estimate of \$1,000 - \$1,500. From the Panama Pacific International Exposition, a Silver-plated Oregon State Fund So-Called Dollar HK 411A sold for an incredible \$3,036; it was valued at only \$150 in the 2008 Hibler & Kappen So-Called Dollar book price guide. Auction results are from the So-Called Dollar expert Jeff Shevlin's recent Sealed Bid Auctions held at the ANA summer and FUN winter conventions.

Stack's Bowers at the Chicago 2010 ANA sold a Gold Wilson Dollar HK 1031, one of only five struck and only three known, for \$32,500 graded NGC Uncirculated, details. While most of the So-Called Dollars valued at \$1,000 or more are receiving increasingly strong Bids when they appear in auction, there are a few exceptions. The 1826 Erie Canal Completion medal HK 1 struck in white metal is quite popular and historically significant, but it is not as scarce as collectors once thought. It is offered for sale in auctions fairly often and that lack of true scarcity has put downward pressure on its value. CH BU examples that were selling for over \$5,000 are going for \$3,500 today.

The auction dynamics for So-Called Dollars has changed quite a bit in the past few years. After canceling their series of Exonumia based auctions a few years ago, Heritage has been selling considerably fewer rare US medals and So-Called Dollars. Since the acquisition of Stack's by Bowers & Merena, their combined output of medals offered for sale has remained constant or perhaps has reduced slightly. The level of market activity achieved by the next tier of auction firms which includes Holabird & Kagin, Presidential and the twice a year auctions conducted by So-Called Guy Jeff Shevlin has increased significantly, filling the gap. There appears to be a renewed collector interest in rarer and more esoteric So-

## the COIN DEALER newsletter MONTHLY SUPPLEMENT

COPYRIGHT 2012 COIN DEALER NEWSLETTER, A DIVISION OF CDN INC.

Reprint of any issue without permission is expressly forbidden by law.

EXECUTIVE DIRECTOR	Pauline Miladin	PUBLISHER & EDITOR	Shane Downing
MARKET ANALYSTS	Dale Sutton, Derik De Baun	CIRCULATION & ADVERTISING	Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. First Class postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$70.00 for six months, \$127.00 for one year and \$209.00 for two years. Phone: (310) 515-7369

Called Dollars and US medals due to their perceived value and rarity.

Coin dealers that specialize in US material have been very active in the Silver and Gold bullion market which has balanced out their somewhat reduced demand from the typical collector looking for US coins. Dealers of US medals and Exonumia are experiencing more active markets with collectors looking for rare and more affordable medals as an alternative to expensive US coins. Leshar Dollars, Bryan Dollars and medals struck by coin dealer Thomas Elder of New York in the early 1900's are really hot and have been going up in price for the past few years. Leshar Dollars were included in the Red Book for the first time several years ago and their value has gone up almost every year since then. There is no better way to expand collector interest in a series than to include it in the Red Book. Leshar Dollar popularity has benefited from their exposure. The availability of new and updated reference materials helps familiarize collectors with the market and educate them on the value, scarcity and history of US medals.

Interest in Jules Charbneau's Gold, Silver and Copper medals from the 1939-40 Golden Gate International Exposition is also growing. HK 488, the 1 D Solid Gold Charbneau Dollar "J1" variety in NGC 65 sold for \$2,400 and the "J2" variety 1 D 10K Solid Gold in NGC 66 recently hammered for \$2,700 at the So-Called Guy's Sealed Bid Auction. The new book "Discover the World of Charbneau Dollars" by Shevlin and Hyder is the first in a series of books to be published on the subject of So-Called Dollars. Their next book "So-Called Dollars from the Pacific Coast Expositions" now in progress will cover the So-Called Dollars from the seven expositions held on the Pacific coast including the 1894 California Midwinter Exposition, the 1915 Panama Pacific International Exposition, the 1909 Alaskan-Yukon Pacific Exposition and four others up through and including the 1962 Seattle World's Fair Exposition.

Bryan Dollars were privately struck in 1896 and 1900 and were satirical pieces primarily making fun of William Jennings Bryan during his campaign for the presidency of the United States. The first detailed study of Bryan Dollars was printed in the July, 1926 edition of The Numismatist. It was authored by numismatist and former ANA President Farran Zerbe and it cataloged over 141 different varieties of satirical Bryan money. In 2001 TAMS published a comprehensive book on Bryan money authored by Fred Schornstein. There are about a dozen struck Silver pieces, many produced by Tiffany & Company of New York, others struck by Gorham Manufacturing Company Silversmith and also by Spaulding & Company. Large at 52 mm and boldly struck, they are fascinating souvenirs of a controversial time in American politics.

Professional grading and slabbing of So-Called Dollars has had a significant impact on the interest and prices realized when they appear in auction. Many of today's advanced collectors want the finer and higher grade pieces, and when slabbed by a major grading firm their confidence in the value goes up. Higher prices paid

today for rare So-Called Dollars are a direct reflection of buyers' confidence due to the professional grading services. The impact on the market has been positive and the upward pressure on prices realized is a direct result. Slabbed pieces are also easier for dealers to handle. The So-Called Dollar series is extensive, covering virtually all metal types from Gold, Silver and Copper to Bronze, white metal, aluminum and virtually every combination of alloys possible. They also range in dates from the early 1800's to the 1960's. Dealers not familiar with the broad range and nuances of grading the series are able to buy and sell encapsulated So-Called Dollars. All of these factors have contributed to the market becoming more mainstream in today's dynamic and diverse hobby.

So-Called Dollars have a broad appeal to today's collectors. Like most series of US coinage, there are many interesting and historically significant pieces available to the beginning collector at relatively low introductory prices. There are literally hundreds of different types available in Uncirculated and Choice Uncirculated grades in the \$25 to \$75 range. There are also many rarer varieties from the 1800's that are beautiful pieces of art, struck in Bronze and with high relief that the more advanced collectors appreciate and are highly desired. At the upper end of the So-Called Dollar market, pieces that sell for \$1,000 or more, collectors are treated with exceptionally rare and significant pieces. If the So-Called Dollars series were a part of a US coinage series they would sell for tens of thousands or hundreds of thousands of dollars based on their rarity. At the 2010 ANA Convention held in Boston, the So-Called Guy auctioned a unique Silver So-Called Dollar HK 23 from the 1876 US Centennial Exposition graded NGC 63 and it sold for \$6,072. The design featured the Liberty Bell on the obverse and Independence Hall on the reverse. If it were a coin it would undoubtedly have sold for hundreds of thousands of dollars. For the So-Called Dollar collector with deeper pockets an incredible collection of fascinating and exceptionally rare medals can be acquired.

The coin industry is always evolving and changing as collectors' interests evolve and change. In the early 1900's collectors were more focused on historical medals until the popularity of date and mint mark collecting expanded. It appears today's collector at the beginning of the 21<sup>st</sup> century may be following in the footsteps of the collectors of a century ago with a growing interest in historical medals.

## Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

### 8 GREAT REASONS TO JOIN TODAY!

#### 12 ISSUES OF NUMISMATIST.

Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

#### BORROW THE BOOK BEFORE YOU BUY THE COIN.

The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

#### LEARN WHAT THE EXPERTS KNOW!

The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

#### SAVE MONEY.

The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

#### INSURANCE.

Insure your collection for as little as 50 cents per \$100 of value. Your homeowners' policy can't match the rates or the coverage.

#### GRADING AND CONSERVATION SERVICES.

Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

#### ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.

Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

#### MEDIATION SERVICES.

Mediation for numismatic disputes is available through the ANA.

Join by phone, 800-514-COIN (2646),

### **Winged Liberty Dimes** **Collecting Strategies**

By Tony Savino

Beloved little Winged Liberty Dimes are rarely referred to by their proper name. This coin is known as the Mercury Dime, by most, due to the winged cap which symbolizes freedom of liberty and thought. This became confused with the Greek god Mercury symbolized by a winged helmet along with winged sandals. Many consider this the most beautiful minor coin every produced by the United States Mint. Adolf A. Weinman designed the Winged Liberty Dime and the Walking Liberty Half Dollar, both of which were introduced into circulation in 1916; the year 1945 concluded the production for the Winged Liberty Dime.

Some minting issues affected the 1916 design. Early Philadelphia strikings were troublesome for the mint, and the planchet was adjusted to prevent the wire rim seen on many early examples. This first year is a higher relief version than later dates. It is interesting to note worn examples of the 1916 and some 1917 Dimes when compared to later date examples having a completely different look due to the high relief of the early years. Strikes within the series give a version of no bands and Full Bands. Full Band versions can command many multiples of the price for some of the years in the set. Examples from 1945 have such a limited amount of Full Band coins due to the poor striking that fully struck Full Band issues are highly sought after. Some of the early teen years are also very difficult in very high grades with Full Bands. Often the highest quality Full Band examples in the teens have higher pricing than the lowest mintage 1916-D in the same grades.

Mercs include many challenges in the basic set. 1916-Ds are the key to the series with a mintage of 264,000. This issue is highly counterfeited, so a top tier certified example is always the best option to protect this date and mintmark combination. The 1921 and 1921-D are the next year of low mintage coins which seem to have an abundance of low-grade examples; however, looking for that high-grade specimen can be difficult and competitive. When completing the A. R. Savino Collection of the Complete Varieties, the 1921 coins proved to be the most difficult in Mint State. Many times in auctions the 1921 and 1921-D go higher than one would expect based on price guides. The other difficult years all seem to be in the 1920s and early 1930s. Regarding the difficulty factor, the most challenging are Full Band coins in the teens and just about all examples in the mid-

twenties. When looking for those non-band coins, that challenge is pretty much the same; however at a lower price level.

This sometimes-overlooked series, partially due to the small size, has an astounding design. The small size, even with the 90% Silver composition, makes the basic year set something for almost any budget. Move up to a complete circulated year and mintmark set, and the only challenge is the key 1916-D. Such low-grade semi-key coins are affordable for just about any budget. If the collector is looking for a challenge, try this set in Mint State or a combination of Mint State with Full Bands, or all Full Band coins. Variety coins give a new meaning to the word difficult. The A. R. Savino Collection was the only 100% complete

Mercury Dime variety set in the PCGS registry. There are still some of the variety coins with populations of only a couple. The coin which has been the most difficult to locate seems to be the 1941 DDO. Only three have been graded at the time of this writing with the top pop being AU58. 1935-S/S Mercs have a total population of four coins with the top pop be-

ing MS63. No Full Band versions exist of either of these coins. Another to be included in the tough to locate category is the 1939-D/D.

So far, the low population star is the 1942-S Inverted S, with a total pop of one as of this writing. However, I think once these are needed for the complete variety set there will be more found. Top pop (or only pop) is one in MS63. A. R. Savino's collection won PCGS' registry award three years running. This was the most fun set this author has ever put together. The 23 extra coins were a challenge. Once a person starts down the journey of researching, and searching for the varieties, the fun is at its starting point. A multi-year challenge to put the set together is still unmatched in the PCGS registry. The set was retired on Easter Sunday, April 8, 2012. It will be interesting to watch the complete variety set to see if anyone else is able to complete it.

Varieties which PCGS selected for the set are all coins listed in the Cherrypickers' Guide by Fivaz and Stanton. A couple of new ones are expected to be added to the set. PCGS has already attributed the 1934-D/D, and the 1942-S Inverted S Dimes and pedigreed those two coins with A. R. Savino on the label. Images of these two specimens can be seen in the retired set. As this set was assembled, it became apparent some coins are much more difficult than one would have thought while others are actually quite easy. The 1941 Double Die Obverse was a very difficult variety, which has a top pop grade of AU58 with only four coins graded to date. This top pop is in the retired set.

The most controversial variety turned out to be the 1936/29-S possible overdate. There is an obvious 2 under the 3,

EXECUTIVE DIRECTOR	Pauline Miladin	PUBLISHER & EDITOR	Shane Downing
MARKET ANALYSTS	Dale Sutton, Derik De Baun	CIRCULATION & ADVERTISING	Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. First Class postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee. **Subscription Information:** A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$70.00 for six months, \$127.00 for one year and \$209.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

***the COIN DEALER Newsletter***

 www.greysheet.com • cdn@greysheet.com

but some believe these to be die gouges, and others believe it is no questions asked a hubbed underdate. The time span is brought up by the non-believers, while the obvious 2 under the 3 is the discussion point for the believers. This author simply has an open mind on the subject, and thinks it is one of the neatest coins in the series. 1943-S Trumpet Tail S coins seem to be easily found in lower grades; however, Mint State examples prove to be harder to locate.

The author's favorite coin in the set would be the 1939-D with that unmistakable colorful look on coins from a hoard found in the 1990s. With a range of color and that white band crossing over the obverse, "Wow" is the one-word description for the coin. I believe these coins were probably placed into bank savings folders right out of an original roll, as many of them have a white un-toned band across the obverse, and when a group is looked at, many of those bands seem to run the same direction. The color ranges and quality of this group of Dimes is unmatched in the series. 1939-D Mercury Dimes are the quality kings of the series. Multiple examples are graded MS68FB+ and MS69FB. From the high-grade examples studied, they all have the color discussed above.

## Variety Searching

If you are going to join the few Mercury Dime variety collectors, start by going through your own coins. You just may be surprised to find one or more special examples. When the search was done for the A. R. Savino Collection, two coins were found in stock and it was quite surprising. A discovery coin was also found, so break out the microscopes, and check your Dimes. Large S, Small S, Micro S, Trumpet Tail S, Large D, Small D, D over D, D over Horizontal D, S over S, S over Horizontal S, Double Die Obverse, Double Die Reverse, combination DDO/DDR, Overdates, and Possible Overdates are sure a lot to sort through. Some coins are obvious, while others are so minor they are not worth the chase.

Hints for locating the varieties on your own include the following: key in on lower mintage dates, as this will narrow the search. For example, the 1929-S Double Die Obverse seems to be easy to find with some searching. With the lower mintages, there were fewer dies, which would translate into less searching. There seems to be many 1929-S DDOs to be had. With a bit of work, you can do it! 1928-S Large S would be another example that seems to be out there with some searching. 1931-D Double Die obverse and 1931-S Double Die obverse are also lower mintage coins which, with a bit of a hunt, should be possible to acquire.

Learn the little idiosyncrasies with each one. When located, thoroughly inspect the coin. Find all the little die scratches and die gouges. Also, look for die clashes, or polishing to remove the die scratches. Many of the 1929-S DDO variety coins have a die

clash with leaves right in front of Miss Liberty's eye. Not all of the 1929-S DDO Dimes show the clashing, as the coins produced before the dies clashed simply will not have these issues, and just because there is a die clash, it still may not be a DDO, as other dies for 1929-S clashed, too. You need to know the other key factors. The 1936-S Possible Overdate can be located by learning the pattern of the polishing on the die which is both in front and behind the bust of Miss Liberty. The polishing has a pattern which has appeared on every example studied.

Learn how to decipher split serifs. Most Double Die coins have noticeable splits in the serifs on the letters and numbers. Many Mercury Dimes with Double Die Obverse have splits within the numbers. These splits are usually clear and almost always about the same height as the original feature. Shelf or machine doubling is prevalent within this series. Learn the difference between a flat shelf and a split. 1941 DDOs seem to bend the rule a bit. There really is not a split serif because the major doubling is in the motto. The pick up point is the U and S of the word TRUST. There is some additional doubling on the coin, but it is difficult to see. If you just want to find a variety and do not have a specific coin, searching 1940-S and 1941-S coins could be a place to start. There are many different varieties in those two years and they should produce something for your efforts. Looking for one of the newest oddities will bring you to a search for the 1942-S Inverted S. This coin needs no studying. The instant you see one under your glass you know something is odd.

1945 brought a few varieties including a pair of OMM with the underlying mintmark being horizontal. The 1945-D over Horizontal D is a bit harder to locate than the 1945-S over Horizontal S. The 1945-S Micro S has a mintmark not used anywhere else in the series. The 1945-D/D has an easy to recognize north-east secondary mintmark. One of the newer varieties recently found is a 1945 DDO which is fairly minor, so this one will take a strong eye.

Some of the varieties are required for registry sets and others are not. The two largest grading services offer Mercury Dime variety sets. One allows more varieties than the other does with many of the varieties needed for both. There are many resources for the variety coin in printed books, and on the internet. A web search for the varieties should supply many images of these varieties in a few different sites.

#### MARKET CONSOLIDATES PRIMARY STRENGTH DISPLAYED AT AUCTION

##### ACTIVITY

... across the market

by Kevin Foley

The outlook for the collectible currency marketplace appears marginally brighter than at this time one year ago. As 2008 drew to a close, the peak levels of an overheated market had been reached and were clearly a thing of the past. Transactions were contracting, both as in their overall numbers and the levels at which they were taking place. A general air of trepidation as to what the future held overhung the market. Dealers were reluctant to buy, for fear that more attractive prices would likely be available from the simple expedient of waiting. Buyers were confronted with contradictory price levels, both with unrealistic auction reserves and private sale offerings at yesterday's much stronger prices from sellers reluctant to accept the sad, yet undeniable, reality that their stock was no longer worth what they had paid. Indeed, it was difficult to know where levels really were, as those who remained market-makers bought and sold at what the current interplay of supply and demand dictated, while others sought to transfer the consequences of a decline in value of their inventories onto the shoulders of buyers less informed of the new lower levels than they should be. The one bright spot yet in evidence a year ago was that auction sell-through rates remained at a higher level than might have been expected in a market that was truly collapsing, rather than simply undergoing a price correction to rebalance supply and demand at more rational price levels.

As we move into the new year, what might to some have seemed a looming depression in the numismatic world has clearly not come to pass. The various auction companies active in the currency trade are conducting sales consistent in size with their offerings of a few years ago, although the product mix has clearly changed. Ultra rarities that once commanded mid six-figure and higher prices are far less often available at auction now, as sellers of such items wait for a hoped-for return to higher levels for such items. While overall prices undeniably remain significantly lower than two years ago, auction sell-through rates, a real measure of the balance between seller and buyer price expectations, continue to suggest growing levels of underlying demand promoted by the lower prices currently in effect.

##### LARGE SIZE TYPE NOTES

Prices for Large Size Type continue to slowly recover, rather than continue to fall. PCGS and PMG certification has become a near necessity for any item represented as being some degree of Uncirculated. Indeed, driven by the concept of registry sets where buyers compete against each other to claim boasting rights to the finest holdings in various categories, the two certification firms have invented a clever way of promoting demand for their product at the very end of the marketplace. Here, there actually exists the most logical and useful demand for their services, i.e. the upper end of the necessarily somewhat subjective quality spectrum in the 1-11 point Uncirculated range, where a single point can mean an especially significant difference in what a buyer might be willing to pay based solely on the third-party

grade label attached to an item. For virtually any Large Size Note, the populations of individual examples certified as 66 or higher is very often in the single digits. Any additional demand at all created by registry set buyers where such grade scarcity exists can markedly steepen the slope of the price gradient and thus serve as an advertisement for the value of third-party grading.

##### SMALL SIZE TYPE NOTES

Price levels here also continue to recover with significant interest being focused on low and fancy serial numbers, as well as scarce Star Notes. Indeed, the marketplace for low and fancy serials once almost a curiosity where items exponentially rarer than more ordinary items of the same type sold for relatively modest premiums, has now expanded to the point that there are multiple market-makers in this specialty, and it has become a real mainstream area appealing to a much broader purchasing base than applied a decade ago. While third-party certification has not penetrated here to the same extent that it has in the Large Size specialty, a trend in that direction is very clearly present and premiums at the upper end of the Uncirculated spectrum are widening for such certified material, especially versus similarly described uncertified items. Error Notes remain a popular collector-driven specialty.

##### FRACTIONAL CURRENCY

Fractional Currency remains very much a collector-as opposed to a speculator dominated area with price levels for very attractive material of a given scarcity remaining well below that of Large and Small Size Type Notes. Ultra rare items have remained available at auction at price levels that are a small fraction of Large Size Type material with similar populations. Exceptionally well centered Notes, regardless of how common, continue to generate significant demand and are easily salable even when somewhat aggressively priced.

##### NATIONAL BANK NOTES

National Bank Notes, comprised of multiple geographic specialty areas, remain more spotty than the other collecting specialties. Scarce to rare material from in demand states can sell quite strongly, sometimes surprisingly strongly, at auction, while material from areas enjoying a less robust following will command only levels that can leave sellers feeling somewhere between frustrated and quite disappointed. It can be a hard lesson to learn in any collectibles marketplace, but there is a real distinction between what sellers think something ought to be worth and what it currently is worth based on the interplay of potential owners competing against each other at auction. What the seller paid what he wanted or what he thought the item should be worth is really quite irrelevant to the entire process. Some never seem to figure this out.

##### MISCELLANEOUS

Obsolesces continue to be a bright spot in the market, with rare material enjoying a broad and growing demand. This remains an area driven by informed collectors, with very little involvement by the third-party certification firms. The exception is for extremely common items that can be marketed in 67 or higher to buyers more impressed by the certified grade label than the ease or challenge of locating and acquiring an item.

# Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

## 8 GREAT REASONS TO JOIN TODAY!

### 12 ISSUES OF NUMISMATIST.

Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

### BORROW THE BOOK BEFORE YOU BUY THE COIN.

The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

### LEARN WHAT THE EXPERTS KNOW!

The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

### SAVE MONEY.

The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

### INSURANCE.

Insure your collection for as little as 50 cents per \$100 of value. Your homeowners' policy can't match the rates or the coverage.

### GRADING AND CONSERVATION SERVICES.

Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

### ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.

Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

### MEDIATION SERVICES.

Mediation for numismatic disputes is available through the ANA.

Join by phone, 800-514-COIN (2646),  
or online at [www.money.org](http://www.money.org)

### Indian Head Quarter Eagles

#### The Unparalleled Value Of Empirical Data

By Anthony M. Scirpo, NLG

The 1911-D \$2½ is *not* the rarest date in the \$2½ Indian series. For generations, the numismatic community has always concluded that the 1911-D \$2½ Indian Head Quarter Eagle was the rarest issuance of this very popular series. If we look at the original mintages, the 1911-D indeed has the smallest production number, far and away. However, truth be told, the invaluable empirical data contained in the NGC Census/PCGS Populations Reports tell quite a different tale.

**Census/Population Reports and Commentary:** According to the current online editions of the NGC Census/PCGS Population Reports, the US Mint manufactured a total of 7,250,281 business strikes from 1908 through 1929. Of that number, a comparatively miniscule 6,968 (9.61 ten thousandths of 1 percent) have been certified as MS65; 441 coins (5.84 one hundred thousandths of one percent) have been certified as MS66, and only 9 MS67s with none higher.

MS65: 6,968      MS66: 441      MS67: 9      MS68/69: 0

The Quarter Eagle series contains three major rarities in MS65 and higher grades the 1914 Denver branch mint issue (1914-D); the rarest, the 1914 Philadelphia issue, the 1914-P; and the former number one, now displaced, the 1911 Denver branch mint issue, or the 1911-D. Earlier issuances in this series, spare the first, the 1908-P and the much later 1925-D, and 1926 range from generally rare to reasonably available. At right are the combined, total populations in MS65 also as taken from the current, online editions of the NGC Census and PCGS Population Reports, by rank and rarity. As noted above, NGC and PCGS have also graded 441 MS66s and 9 MS67s. There are no MS68s or MS69s in this series.

**Empirical Data, Proof Issuances:** The true rarities in the series are the coinage of 1908-1915, inclusive (8 years). Their capture by advanced collectors is one of the shrewdest coups in the rare coin market. As to comparisons, there really isn't any such thing as a "common date" in the Proofs, but if we had to select one, it would be the issue of 1908 with forty-nine speci-

NGC & PCGS GRADED POPULATION MS65 THROUGH MS67						
DATE	NGC MS65	NGC MS66	NGC MS67	PCGS MS65	PCGS MS66	PCGS MS67
1908	390	60	3	459	91	2
1909	207	24	0	145	17	0
1910	164	12	0	80	8	0
1911	172	5	0	83	1	0
1911-D	80	2	0	16	2	0
1912	58	2	0	59	5	0
1913	78	3	0	91	5	0
1914	47	3	0	48	2	1
1914-D	39	0	1	40	0	0
1915	183	7	0	110	3	0
1925-D	896	44	1	486	30	0
1926	572	20	0	638	40	0
1927	418	9	0	375	17	0
1928	422	15	0	280	10	0
1929	215	2	0	117	2	1

mens in PR65; fifty in PR66 and twenty-eight PR67s. Proof Gold coinage was never made in large quantity, and rare it is for any mintage to exceed 200 or so coins. In the entirety of the \$2½ Indian Head series, the US Mint manufactured a total of 1,827 Proof Quarter Eagles in the consecutive eight years from 1908-1915. Of the 1,827, the two major rare coin certification services have seen a total of 1,023 of them in all numismatic grades. Listed on the next page are the Proof numbers in combined NGC/PCGS certified grades, from PR65 through PR68.

**Factoid:** The Indian Head \$2½ Quarter Eagles and \$5 Half Eagles of 1908-1929 lay claim to two very distinct characteristics not found in any previous or subsequent American coinage: (1) the design elements (central devices) are raised, but sunk below the plane of the fields. Essentially, this means that the central devices (obverse and reverse) are in relief, yet below what is the level surface of the coin (incuse). (2) the Indian Head Quarter Eagles and Half Eagles were the first coins to depict an actual American Indian on a federal coin. Prior designs on all US coinage featured Caucasians dressed in Indian regalia. They are also the only American Gold coins that can be properly referred to as "Indians" or "Indian Heads." References to either the \$10 Princess or the \$3 Princess as "Indian" is a misnomer.

**Obverse Design:** Is a depiction of a proud and brave male, American Indian, who faces to the left. He wears a war bonnet with seven, large eagle tail feathers and a brow band with an incorporated geometric design. A distinctive band of eagle down feathers (known also as an eagle plume), is to the right of the wrapped quills. A hair braid and hawk feathers fall from the crescent medallion at the end of the brow band and two bear claws are visible next to the lowest large eagle feathers. The legend, LIBERTY, is centered directly above the Indian's head. The date is centered below his neck at the extreme periphery, (6 o'clock low). Thirteen stars, representing the thirteen original colonies, form an arc in front of and in back of the central device, (Indian); six stars to the left and seven to the right.

**Reverse Design:** Is a left-facing eagle perched atop a bundle of arrows and holding an olive sprig in his right, (dexter), talon. The legend, "UNITED STATES OF AMERICA", is arced above the eagle's head, at the extreme periphery. The motto,

ADVERTISING

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified) but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market, such Bids may include consideration of a costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. First Class postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$70.00 for six months, \$127.00 for one year and \$209.00 for two years. Phone: (310) 515-7369

E PLURIBUS UNUM, is displayed in three rows directly in front of the eagle and the motto, IN GOD WE TRUST in four rows behind it. The denomination, either \$2½ Dollars (this coin), or Five Dollars is beneath the olive sprig and site on which the eagle rests. Any mintmark, (other than from Philadelphia, which has none), would be immediately to the left of the arrowheads.

Note: A "legend" is that part of a coin's or medal's inscription placed in a circular arc parallel to the border, (of a coin or medal). UNITED STATES OF AMERICA is considered a legend, as is "LIBERTY" insofar as their respective placements are concerned on either a coin or medal.

An "inscription" could be words, numerals and abbreviations on a coin, other than dates, mintmarks and engravers' or designers' signature. A "motto" is an aphorism, often set off from legends or other inscriptions on a coin or medal, frequently included in a blazoning of arms. American examples before the current, "IN GOD WE TRUST" and "E PLURIBUS UNUM" include many listed in "Inscriptions On Colonial Coins: Translations and Index," above. In some, e.g., "Immunis Columbia/Constellation Nova" and "Liberty, Parent of Science and Industry," distinctions between motto and legend are obscured or obliterated. How seriously mottos were taken is shown by the furor that arose over presidential orders (President Theodore Roosevelt of "Rough Rider" fame), omitting "In God We Trust" from 1907-1908 \$10 and \$20 Gold coins.

Proof Versus Business Strike. . . What's The Difference?

A "Proof" coin is very different from a "Business Strike," the latter intended for use in daily commerce. Proof coinage is specially struck for collectors. Yes, there were coin collectors way back when and for generations prior to the time that the first Colonists set foot on American soil. The difference between a Proof coin and a Business Strike is in the method of manufacture. A coin is manufactured or "struck" by an obverse and reverse die after pressure imprinting in a coin press. A die is the engraved imaging that appears on the front (or obverse), and

\*(None are finer)

back (or reverse), of a given coin. The dies carry the approved design. All coining laws of the United States are vested in the Congress, and have been historically, since our first coin law, The act of April 2, 1792. A Proof coin is struck from specially prepared, highly polished dies. The coining blank or planchet, which contains the required mixture of precious metal and supporting alloy, is struck twice or more by the dies. This produces a very sharply struck coin with "frosty" devices, (Miss Liberty or other approved image on the obverse and the eagle, or other approved design, on the reverse), and mirror-like fields. The relief (acuity), of the engraved design, carried into the planchet by the dies is sharper, (clearer), than a Business Strike, which is struck only once by the coining dies. . . and that is the essential difference between a "Proof Coin" and its counterpart "Business Strike".

## BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark - these bring lower prices. "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices - particularly the pre-1941 issues. Washington rolls - dull or "tad" together - bring lower prices. Franklin D. Roosevelt rolls (particularly the 3-coin issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

# Gold Hitting Record Highs & Expected to Continue

## GET THE ONLY AWARD WINNING\* *personal* GOLD GUIDE. *your* FREE

[ PLUS FREE SHIPPING ]

### If you don't own gold, it's not too late.

With gold increasing over 500%\*\* since 2000, imagine the position you'd be in today looking at those numbers if you had owned a large amount of gold over the last 10 years. Now look at the next 10 years - many analysts recommend 5% - 25% of your total portfolio be in physical gold and they expect gold to continue its climb to \$2,000 per oz. and beyond!

Compiled by market analysts  
& award winning gold experts,  
get the comprehensive insights  
you need to confidently  
diversify, strengthen, & secure  
your portfolio  
with gold.

ANA Life Member Since 1973

for over 45 years, collectors needing  
confidential direction and reliable advice have successfully turned to

**Julian M. Leidman**

*Professional Numismatist & Consultant*

With complete confidentiality, I will custom tailor my services to fit your numismatic needs. I can assist in the *formation of your collection*, with more than 45 years as a professional, I can locate the U.S. coins or currency you need. I can provide you with *confidential advice*, just as I have for collectors, other dealers, attorneys and corporations. I can help you find those hard-to-get coins and develop your collection. I can act as your *personal representative* for any numismatic transaction; take advantage of my decades of experience for a maximum commission of 10%. I can also assist in the *orderly disposition* of your holdings, to make sure that you receive top dollar in the marketplace. Between buying and selling, I can *appraise* your collection or individual pieces. You know your needs best; contact me for *expert* assistance.

*We sell Coins, Supplies & Sports Cards*

# Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

## 8 GREAT REASONS TO JOIN TODAY!

### 12 ISSUES OF NUMISMATIST.

Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

### BORROW THE BOOK BEFORE YOU BUY THE COIN.

The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

### LEARN WHAT THE EXPERTS KNOW!

The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

### SAVE MONEY.

The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

### INSURANCE.

Insure your collection for as little as 50 cents per \$100 of value. Your homeowners' policy can't match the rates or the coverage.

### GRADING AND CONSERVATION SERVICES.

Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

### ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.

Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

### MEDIATION SERVICES.

Mediation for numismatic disputes is available through the ANA.

### Collecting US Large Cents by Major Die Variety The Early Dates, 1793-1814

By Gene G. Heard, MD

The last discussion of US Large Cents in the *Coin Dealer Newsletter Monthly Supplement* was Jack Beymer's 1981 two part article (see "Large Cent Analysis" *CDN Monthly Supplement*, April and May, 1981). In the intervening 31 years, much has changed in the Early American Copper market. The Early American Copper Club, Inc. (EAC) supports one of the largest and most active collecting fraternities in the entire Federal series of US coins. Two major books on early US Large Cents have been published (Bill Noyes, *United States Large Cents Volume I*, and Walter Breen and Mark Borckardt, *Walter Breen's Encyclopedia of United States Cents 1793-1814*. Several major US Large Cent collections (Dan Holmes, Walter Husak, Ted Naftzger) have recently come to public auction, disbursed to a large audience of avid copper collectors: Walter Husak's high-grade nearly complete by Sheldon die variety collection sold by Heritage Auctions in February 2008 to record-breaking results for a total over \$10.7 million, generating much collector enthusiasm.

Dr. William H. Sheldon's 1949 publication *Early American Cents* (subsequently revised as *Penny Whimsy* with Dorothy Paschal and Walter Breen), listed all of the known early date die varieties from 1793-1814 in assumed order of emission, from S-1 to S-295, with certain rare varieties (generally with only a handful known each), deemed as "non-collectible" (NC). Dr. Sheldon also proposed the Sheldon grading scale, from 1 (basal state) to 70 (perfect mint state) still in use today.

Early Date Large Cents can be collected in a variety of ways, depending upon one's time frame and budget. The shortest (five coins) would be one of each Type: 1793 Flowing Hair Chain Reverse, 1793 Flowing Hair Wreath Reverse, Liberty Cap, Draped Bust and Classic Head. More challenging would be a date set 1793-1814 including the three 1793 Types (Flowing Hair Chain Reverse, Flowing Hair Wreath Reverse, and Liberty Cap) as well both Types of 1796 (Liberty Cap and Draped Bust) for a total of 25 coins. A major variety set, as listed in the Redbook, includes 63 coins without the four ultra rarities, 67 with. This set includes many fascinating varieties, including overdates and blundered die errors. There are currently 340 total known Early Date varieties, including 302 numbered Sheldon and various other re-strike and non-collectable varieties. Few collectors have completed Early Date sets by Sheldon variety. This article will concentrate on the major (Redbook) variety set of 63 coins.

For the most part, I will discuss coins in no-problem VF condition, a grade usually attainable, and one that balances affordability with remaining device detail. By no problem, I mean coins that are *market acceptable*. Generally speaking, this means a coin without major scratches, rim bumps, harsh cleaning or porosity. Raw coins such as these would *likely* be graded if submitted to PCGS or NGC for certification. In my experience, major rarities with problems are given more leeway by the grading services. Many Early Date Large Cents have been exposed to a variety of insults, including cleaning, corrosion and re-coloring. These Cents with choice color and surfaces are uncommon. When encountered, they are apt to bring substantially more than, and sometimes multiples of, published price guide values.

#### Grading and relative rarity

The advent of third-party encapsulation, guaranteeing authenticity and grade, has revolutionized the coin market in general, and the Early American Copper market in particular. Although traditionally many EAC members may have preferred collecting raw coins, the realities of the coin marketplace are placing more and more Early Coppers into certified holders (undoubtedly, some are "liberated" from their slabs after purchase). Most major Copper collections are now certified by PCGS and/or NGC before coming to public auction. The PCGS *Population Report* and NGC *Census* provide insight into the relative rarity of each issue in the early date series. Absolute population numbers are less useful as many Early Date Large Cents remain uncertified. The EAC has its own strict grading criteria based on sharpness, less deductions for problems, with surface quality modifiers of choice, average plus, aver-

age, average minus and scudzy. For the most part, PCGS and NGC assign one market grade based upon wear and eye-appeal.

#### Impact of Set Registry

The creation of the PCGS Set Registry was a brilliant move by PCGS that has encouraged many collectors to complete their sets (with PCGS certified coins *only*; NGC's Coin Registry accepts NGC and PCGS certified coins). As of June, 2012, there are more than 170 US Large Cent collections listed on the PCGS Set Registry. PCGS has pre-defined multiple Early US Large Cent sets, from a basic date set (25 coins), and for the most patient and deep-pocketed of collectors, a complete Sheldon variety set of 302 coins (of which there are currently no set registrants). The PCGS Set Registry allows collectors to display high resolution photographs of their coins, along with data such as variety and pedigree information. The set registrant also can enter private data including cost, where and when purchased, etc.

#### 1793 Flowing Hair

Chain Type, three varieties. Chain Cents with nice surfaces and color are very difficult to find in today's market. The S-1 AMERI. (R4) wherein AMERICA in the reverse legend is shortened to AMERI., is thought to represent the very first output of the US Mint in March, 1793. As such, it enjoys strong demand from both Large Cent specialists as well as Type collectors. Values of all Chain Cents have consistently moved higher over time. In the mid-1990s it was possible to acquire a Choice AU certified Chain Cent for \$25,000; in today's market such a sum would purchase a mere Fine to Very Fine example.

S-4 Chain Cents with periods after the date and LIBERTY are slightly more common (R3) than S-1 AMERI.s. The Eliasberg specimen of the Periods Chain Cent, graded PCGS MS65BN CAC and considered the third finest known, sold for \$1,380,000 in the Heritage Auctions Platinum Night event at the Florida United Numismatists convention in Orlando, January 4, 2012; a record price for a U.S. Copper coin in a public auction, according to Heritage. Chain Cents with AMERICA spelled out on the reverse (S-2 and S-3), taken together, are the most common Chain Cent major variety.

Wreath Type: two varieties distinguished by their edge treatments, Vine & Bars and Lettered. By my experience, Lettered Edge Wreath Cents are much scarcer than their Vine and Bars edged counterparts. Both are challenging to find with problem-free surfaces.

#### Liberty Cap 1793-1796

1793 Liberty Caps are far scarcer than Chain and Wreaths Cents; these often have planchet problems that preclude encapsulation and third-party grading. Only one Mint State 1793 Liberty Cap Cent is known, sold by Bowers & Merena for \$319,000 in their 1996 Eliasberg sale. More recently, Walter Husak's second finest known example PCGS AU55, brought \$632,500 when sold by Heritage in Feb '08. Certified VF20 examples have sold for \$46,000 in recent auctions.

#### 1794: Five varieties

Head of 1793 Cents were struck in lower relief than Head of '94's, making grading by detail more difficult. Head of '94 and Head of '95, the most common 1794 Types, are available in grades up to and including Mint State. The S-48 1794 Starred Reverse with 94 tiny pointed stars between the reverse denticles is the rarest and most challenging coin in the Early Date major variety set. PCGS has encapsulated 28 examples ranging from Fr-2 to a single AU-50 example which sold via public auction for \$632,500 in the 2/08 Heritage sale of the Walter Husak collection. Many of the known Starred Reverse examples are low grade and/or scudzy. Plenty of collectors would be satisfied with an example where at least a few of the reverse stars are visible. The 1794 No fraction (S-64, R5) is in strong demand as a Redbook variety. The plethora of 1794 minor die varieties (from S-17 to S-72) has spawned specialists who concentrate on this single year, known as the "Boys of '94".

**1795:** Two 1795 varieties, plain and lettered edge, are generally available with nice surfaces. Mint State examples are occasionally seen.

**1796:** Liberty Caps are not especially rare or difficult to find nice; in my experience they are encountered more frequently than the 1796 Draped Bust Type.

#### Draped Bust 1796-1807

**1796 Draped Bust:** Four varieties. As a result of the Nichols find in 1859, the 1796 rev. of 1797 (S-119) is the most common Mint State 1796 Draped

MARKET ANALYSTS Dale Sutton, CIRCULATION & Betty Morris  
Derik De Baun ADVERTISING

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

Bust Cent, but nonetheless all are scarce in Circulated condition. The famous LIHERTY variety (was made from a die that was blundered, with the B first cut inverted, then corrected. The result is four serifs, or the appearance of an H.

**1797:** Four varieties, only the 1797 Reverse of 1797 With Stems is frequently seen.

**1798:** Four varieties. The overdate, 1798/7 and the 1798 with reverse of 1795 are much more difficult to locate in VF condition than the two 1798's with reverse of 1798 (1<sup>st</sup> and 2<sup>nd</sup> hairstyle varieties), despite little difference in their price guide values.

**1799:** Two varieties, normal date 1799 and overdate 1799/8. 1799 is the rarest date in the US Large Cent series from 1793-1857. Approximately three times rarer, the overdate is valued at a relatively small premium compared to the normal date. Due to striking irregularities, finding a mid-grade Circulated 1799 Cent with both LIBERTY and the date fully legible can be challenging. Few 1799 Cents possess choice surfaces and/or light brown color.

**1800:** Three varieties: normal and two overdates. Of the two overdates, 1800/1798 is much scarcer than the 1800/79.

**1801:** Four varieties, normal reverse and three reverse dies with error fractions. The corrected error fraction reverse, 1/100 over 1/000 is the scarcest. Most interesting is the three error reverse variety: the left wreath is stemless, the U in UNITED inverted and then corrected, and the fraction expressed as 1/000.

**1802:** Three varieties. The 1802 normal reverse is one of the most common Draped Bust Large Cents extant, with Mint State examples encountered with some regularity. Stemless Wreath examples are also common. The error fraction 1/000 reverse is occasionally seen.

**1803:** Six varieties. The 1803 Large Date, Small Fraction is one of the rarest Early Date major varieties, with about 75 known examples, with only one sharper than Very Fine. The 1803 Small Date, Small Fraction is one the most common Draped Bust Large Cents, available in all grades, including Mint State. The 1803 Large Date, Large Fraction, 1/100 over 1/000 and Stemless Wreath Reverse Error Cents are scarce by comparison.

**1804:** Only one die, but sometimes collected by three distinct die states (S-266A, B and C). One of the key Early Dates, even low grade pieces are in demand, inflating certified populations by the inclusion of many lower-grade pieces. Rare above VF.

**1805:** One major variety, easily obtainable in VF condition.

**1806:** S-270, the sole variety for the date. Pressure from both date and Sheldon variety collectors keeps demand higher than it might otherwise have been. Readily available in Circulated grades.

**1807:** Five varieties, including one of the keys to the Early Date series, the 1807 small 7 over 6 with approximately 100 specimens accounted for, many of which are corroded or otherwise impaired. Only 11 examples of the 1807 Small Fraction variety have been certified by PCGS. The 1807 large 7 over 6 and 1807 Large Fraction varieties are seen with regularity. The interesting 1807 "Comet" Cent was created by a large diagonal defect in the obverse die, and is more correctly a die state, rather than a die variety.

### Classic Head 1808-1814

All Classic Head Cents are uncommon with nice surfaces, much more so than the Draped Bust design which preceded them. While not unknown, those with attractive, light brown color are especially difficult to locate, and are generally worth more than price guide estimates. Most Classic Head Cent planchets are very dark brown, some even black, in color. All Classic Head Cent varieties are common except 1811/0, which is rare above VF condition.

## BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices. "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "faded" bring lower prices. Some full bands Walking Liberty rolls (particularly the 3- and 4-ounce issues) are worth more than listed prices. MS-60 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

# CDN GRAPH BOOKS

## Have a favorite coin series?

CDN Graph Books are loaded with specific, historic information on a wide range of coins. With 46 books to choose from, you'll find what you need to chart the progress of your favorite series.

### FLYING EAGLE & INDIAN CENT

1980-2010/2011 (62 pages) \*Updated Nov-10

### LINCOLN CENT

1980-2010/2011 (74 pages) \*Updated Dec-10

### TWO CENT PIECE

1980-2010/2011 (24 pages) \*Updated Dec-10

### THREE CENT SILVER

1980-2010/2011 (53 pages) \*Updated Aug-10

### THREE CENT NICKEL

1980-2010/2011 (53 pages) \*Updated Aug-10

### SHIELD NICKEL

1980-2010/2011 (41 pages) \*Updated Dec-10

### LIBERTY NICKEL

1980-2010/2011 (67 pages) \*Updated Aug-10

### CIRC BUFFALO NICKEL

1980-2010/2011 (69 pages) \*Updated Oct-10

### UNC BUFFALO NICKEL

1980-2010/2011 (69 pages) \*Updated Oct-10

### BARBER DIME

1980-2010/2011 (76 pages) \*Updated Dec-10

### MERCURY DIME

1980-2010/2011 (84 pages) \*Updated Jul-10

### TWENTY CENT

1992-2012/2013 (22 pages) \*Updated Apr-12

### BUST QUARTER

1992-2011/2012 (60 pages) \*Updated Jan-11

### CIRC LIBERTY SEATED QUARTER

1992-2012/2013 (116 pages) \*Updated Mar-12

### UNC LIBERTY SEATED QUARTER

1992-2012/2013 (162 pages) \*Updated Mar-12

### BARBER QUARTER

1980-2010/2011 (75 pages) \*Updated Feb-11

### STANDING LIBERTY QUARTER

1980-2010/2011 (77 pages) \*Updated Dec-10

### WASHINGTON QUARTER

1985-2010/2011 (51 pages) \*Updated Feb-10

### EARLY HALF DOLLAR

1992-2012/2013 (150 pages) \*Updated Jan-12

### BARBER HALF DOLLAR

1980-2010/2011 (74 pages) \*Updated Dec-10

### WALKING LIBERTY HALF DOLLAR

1980-2010/2011 (66 pages) \*Updated Jul-10

### CIRC MORGAN DOLLAR

1980-2010/2011 (107 pages) \*Updated Sep-10

### UNC MORGAN DOLLAR

1980-2010/2011 (107 pages) \*Updated Sep-10

### DMPL MORGAN DOLLAR

1980-2010/2011 (49 pages) \*Updated Sep-10

### PEACE DOLLAR

1980-2010/2011 (49 pages) \*Updated Jul-10

### \$2½ INDIAN HEAD

1980-2010/2011 (24 pages) \*Updated Oct-10

### \$4 GOLD STELLA

1992-2012/2013 (13 pages) \*Updated Jun-12

### \$5 INDIAN HEAD

1992-2010/2011 (33 pages) \*Updated Jun-11

### EARLY HALF EAGLES

1992-2012/2013 (129 pages) \*Updated Mar-12

### \$5 LIBERTY HEAD, NO MOTTO

1992-2012/2013 (206 pages) \*Updated Mar-12

### \$5 LIBERTY HEAD, WITH MOTTO

1992-2012/2013 (239 pages) \*Updated Mar-12

### \$10 INDIAN HEAD

1980-2010/2011 (41 pages) \*Updated Nov-10

### EARLY EAGLES

1992-2012/2013 (26 pages) \*Updated Mar-12

### \$10 LIBERTY HEAD, NO MOTTO

1992-2012/2013 (119 pages) \*Updated Mar-12

### \$10 LIBERTY HEAD, WITH MOTTO

1992-2012/2013 (252 pages) \*Updated Mar-12

### \$20 SAINT-GAUDENS

1980-2010/2011 (62 pages) \*Updated Sep-10

### \$20 LIBERTY HEAD TYPE 1, NO MOTTO

1992-2012/2013 (80 pages) \*Updated Mar-12

### \$20 LIBERTY HEAD TYPE 2, WITH MOTTO

1992-2012/2013 (66 pages) \*Updated Mar-12

### \$20 LIBERTY HEAD TYPE 3, DOL ON REV

1992-2012/2013 (173 pages) \*Updated Mar-12

### MINT STATE TYPE

1980-2010/2011 (99 pages) \*Updated Aug-10

### PROOF TYPE

1980-2010/2011 (54 pages) \*Updated Aug-10

### GOLD TYPE

1980-2010/2011 (69 pages) \*Updated Aug-10

### EARLY GOLD TYPE

1992-2012/2013 (76 pages) \*Updated Jul-12

### PROOF GOLD TYPE

1980-2010/2011 (.7 pages) \*Updated Oct-10

### SILVER COMMEMORATIVE

1980-2010/2011 (98 pages) \*Updated Aug-10

### GOLD COMMEMORATIVE

1980-2010/2011 (43 pages) \*Updated Jul-10

# Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

## 8 GREAT REASONS TO JOIN TODAY!

### 1 12 ISSUES OF NUMISMATIST.

Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

### 2 BORROW THE BOOK BEFORE YOU BUY THE COIN.

The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

### 3 LEARN WHAT THE EXPERTS KNOW!

The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

### 4 SAVE MONEY.

The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

### 5 INSURANCE.

Insure your collection for as little as 50 cents per \$100 of value. Your homeowners' policy can't match the rates or the coverage.

### 6 GRADING AND CONSERVATION SERVICES.

Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

### 7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.

Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

### 8 MEDIATION SERVICES.

Mediation for numismatic disputes is available through the ANA.

Join by phone, 800-514-COIN (2646),

### IRS SEIZING LARGE AMOUNTS FROM COIN DEALERS' BANK ACCOUNTS Banks Are Reporting To IRS Multiple Cash Deposits Of Under \$10,000

By Diane Piret

Structuring your cash bank deposits with the specific intent to avoid having those transactions reported is not only illegal, but you may find that the IRS has seized most of the money in your bank account. Illegal structuring of cash deposits makes those funds vulnerable to seizure, and potentially forfeiture, under federal laws. Yes, they can do that, and they recently have done so. There is an IRS Task Force working right now investigating cash businesses, including coin dealers. Some significant seizures have already happened very recently to several coin dealers.

To the best of our knowledge, none has yet been charged and prosecuted criminally for such structuring, but that may be only because the source of the funds was determined to be legal money. It does not mean that the dealers could not be prosecuted. And they are still out a lot of money. A lot – some well into six figures. On top of that, they've had to hire expensive attorneys to help them navigate through the situation and to determine whether they could get any of their money back.

In a couple of the instances we know of, the dealers took the "advice" of the bank teller when she said that if they keep their cash deposits under \$10,000 then she wouldn't have to file a report. **DON'T EVER LET A BANK TELLER INSTRUCT YOU ON HOW TO CONDUCT YOUR CASH BUSINESS.** If you're not sure what is appropriate and legal, you must find your answer from an authoritative source.

#### If you have over \$10,000 in cash to deposit, just do it.

As you know, it's not uncommon for coin dealers to make cash bank deposits more than once a week, whether in green cash or cashier's checks and money orders. If the bank sees a pattern of what might be illegal behavior – such as when a coin dealer's cash

deposits are relatively frequent and always less than \$10,000 – the bank is required to file a Suspicious Activity Report (SAR). In all of the coin dealer cases when the IRS came to the dealers' places of business, it was in response to a report by the banks. If you had, such as one dealer did, six IRS agents walk into your store wanting to talk to you about your cash deposits, you just know this is not going to be a good day.

How do you protect yourself from these IRS seizures? Just make your deposit. Do not deliberately keep the deposit under \$10,000 – that's what will get you into trouble.

#### What do you do if you took in more than \$10,000 in cash, but want to keep some of it on hand in order to make purchases? Must you deposit all the cash that came in that day?

This doesn't mean that you can never deposit less than \$10,000. You are not required by any law to deposit all the cash that came in. It's perfectly legal to retain some of the cash in your shop for legitimate business purposes. It's also quite common that over the course of a three or four day coin convention for dealers to take in well over \$10,000 in cash. While they may not have taken in over \$10,000 in any one day, by the time they get home they have this large amount of cash that they need to deposit into their bank account.

Banks may file a CTR (Currency Transaction Report) on your cash deposits, which is no big deal. When you think you're being clever by keeping the transactions under \$10,000 (structuring your transactions) that's when you look suspicious, and the bank will report you. Once again, structuring your deposits or any transactions to make them appear as though reporting is not required is illegal, and you can be charged criminally.

There's no point in getting yourself worked into a frenzy about how this is wrong and it shouldn't be. This has been the law since 1986, and quite literally, it would take an act of Congress to change it.

#### What should I do – or not do – if IRS agents "visit" me?

The one element that is consistent in each of these horror stories of IRS seizures is that when the IRS agents came to each dealer's place of business and the agents wanted to talk with him, the dealer did so without benefit of professional counsel. In each instance, the dealers were unaware that they might have done anything wrong. But in the course of conversation with the IRS agents, the dealers revealed information that they should not have. The IRS had already taken the money from their accounts, but admitting that they deliberately kept cash deposits under \$10,000 doesn't help their cases when they try to get the money back. Sometimes the IRS agents first say they're investigating somebody else, perhaps one of your clients. If that is true, and they want records on one of your clients, tell them you would be more than happy to comply with their request, but will need a subpoena or summons for the information so that you will be legally protected when giving out client information. If the agents want to speak to you about something you did, do not answer any questions without counsel present. That is your legal right. You should always act professionally, and definitely not be argumentative. Just ask them for a business card, and tell them that you

The image shows two IRS forms. The top form is the Currency Transaction Report (Form 104), dated March 2011. It includes fields for the filer's name, address, and the name of the person(s) involved in the transaction. The bottom form is the Suspicious Activity Report (Form SAR), dated March 2011. It includes fields for the filer's name, address, and the name of the financial institution. Both forms have a 'Previous editions will not be accepted after September 30, 2011' notice.

COPYRIGHT 2012 COIN DEALER NEWSLETTER, A DIVISION OF CDN INC.

Reprint of any issue without permission is expressly forbidden by law.

EXECUTIVE DIRECTOR	Pauline Miladin	PUBLISHER & EDITOR	Shane Downing
MARKET ANALYSTS	Dale Sutton, Derik De Baun	CIRCULATION & ADVERTISING	Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGIT-UNSEEN market such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. First Class postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$70.00 for six months, \$127.00 for one year and \$209.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

would be happy to answer any of their questions, but that your attorney will be in contact with them to set up a meeting. That they're coming to you, however, means they already believe you have some involvement, either as a witness or target. This is definitely not a good time to be chatty. **Other than exchanging contact information, you should not say anything more.**

**IMPORTANT NOTE** – Revenue agents – the ones who conduct compliance exams – will either call or send you a letter to set up an appointment. If agents come to you without notice, it will usually be a Special Agent with the IRS – Criminal Investigation Division or another federal agency.

While ICTA can't formally advise you on these matters, we do have some suggestions.

**1.** Speak with your legal counsel – today if possible – on how you should handle a situation if the IRS comes to talk with you. It's also a good time to find out how much your professionals know about the seizure/forfeiture and structuring laws. It's been our experience that most accountants and attorneys are severely lacking in knowledge of the cash reporting and anti-money laundering laws.

**2.** If you don't have an accountant and/or attorney, get one. Get a good one. It doesn't have to be an expensive law firm – in fact there are a lot of former Assistant US Attorneys who are now in private practice. If you locate one, be sure to ask what types of cases they worked while with the government. Your bookkeeper is no substitute for a professional CPA, just as Uncle Charlie's nephew who is in law school is no substitute for an attorney. Make sure your professionals are well-versed in cash reporting and anti-money-laundering laws, including Section 352 of the USA Patriot Act.

**3.** If IRS agents "visit" you, you are not obligated or required to speak with them. We suggest you ask them what they want to talk about. Even if the subject seems benign, you still want to refer them to your professional counsel. You should ask to see their credentials. If you see a gold badge, you want to be extremely careful because they represent the IRS-Criminal Investigation Division. You may want to ask them for their business cards and tell them that you will forward the information to your attorney and he or she will contact them to set up a meeting. Or you can tell the IRS agents that they may contact your attorney and then give them that contact information. In this case, we suggest you give your attorney a heads up that he or she may be contacted by the IRS. Your attorney will likely want to talk with you before hearing from the agents. It doesn't make any difference if they are there to get information on a client or you, you do not want to answer any questions until speaking with counsel. If they already have a search or seizure warrant in hand, then there is nothing you can do except get a copy of it and let them do their job. They are in control of your business or house at that point. But you are in control of your mouth – keep it shut.

## To recap, you should never, ever deliberately keep your cash bank deposits less than \$10,000 specifically to avoid any reporting.

Even if the money is totally legal, "structuring" any cash transaction – including bank deposits – specifically to avoid reporting those cash transactions is against the law. It is a violation of federal law, and you could be prosecuted for it.

For more information on this subject, ICTA has a Cash Reporting Kit that you may find helpful. It is only \$100 to ICTA members, and \$500 to non-ICTA members. It includes sample IRS/FinCEN 8300 forms and instructions as well as a Q & A that "translates" much of the cash reporting requirements for you as pertains to the coin business. There are also some documents contained in the kit that you cannot get anywhere else – certain letters from the IRS to ICTA that even an IRS agent would not have. Contact ICTA to order the kit.

## USA Patriot Act, Section 352

If you're not familiar with this section of the USA Patriot Act that applies specifically to coin dealers, we strongly suggest you consult with your accountant or attorney immediately. Virtually all coin dealers are required to be in compliance with this federal law that has been in effect since January of 2006. Section 352 requirements include having a written and implemented AML (anti-money laundering) policies and procedures manual (AML Plan), a designated compliance officer, ongoing training, and an annual independent review of your plan/program. You may wish to consult the ICTA website (www.ICTAonline.org) and click on the What's New tab for more information. Many ICTA members have worked with Mr. Ray Gregson, a retired IRS Special Agent, who has written many of these AML plans for coin dealers.

It is becoming increasingly common for banks to demand a copy of the coin dealers AML Plan and a written independent review report. Failure to produce the plan and report within a short period of time – usually 10 days to two weeks – has resulted in some coin dealers' accounts being closed by the bank. If you get such notification from your bank, it will likely be too late to start to scramble to have both a plan and the independent review report done. If you don't already have the plan and report, we very strongly suggest you remedy that deficiency immediately.

Diane Piret

ICTA Industry Affairs Director

ICTA is the national trade association for the rare coin and precious metals industry. For more information on ICTA, you can visit the website at [www.ictaonline.org](http://www.ictaonline.org). For membership information call 410-626-7005 (Executive Office) or 504-392-0023 (Industry Affairs Office). ICTA is a non-profit national association representing the rare coin, currency and precious metals industry. ICTA is supported solely by membership dues and donations. opportunity to reserve a table  
for this rapidly growing show!**

Please Contact Julie or Mary Woodside at  
800-642-4305 or [SilverDollarShow@yahoo.com](mailto:SilverDollarShow@yahoo.com)

# Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

## 8 GREAT REASONS TO JOIN TODAY!

### 12 ISSUES OF NUMISMATIST.

Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

### BORROW THE BOOK BEFORE YOU BUY THE COIN.

The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

### LEARN WHAT THE EXPERTS KNOW!

The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

### SAVE MONEY.

The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

### INSURANCE.

Insure your collection for as little as 50 cents per \$100 of value. Your homeowners' policy can't match the rates or the coverage.

### GRADING AND CONSERVATION SERVICES.

Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

### ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.

Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

### MEDIATION SERVICES.

Mediation for numismatic disputes is available through the ANA.

### 1909-S Cents

The year 1909 was, to say the least, interesting for the U.S. Cent. The highly prolific Indian Head Cent, after a successive fifty year period of service as the nation's most widely circulated currency medium, was relegated to the status of a heart-felt memory, if not a collectible, almost immediately following its discontinuation and replacement by the highly anticipated Lincoln Cent. James B. Longacre's indelibly impressive Indian Head design adorning the obsolete item finally gave way to one featuring a profiled depiction of a most beloved and martyred President who was slain just forty-four years earlier. For many, this newly issued "Commemorative," a centennial tribute to Lincoln's birth, served strictly as a veneration item, a souvenir of sorts, to be tucked away inside a small envelope, a cigar box, or inside a pill box kept on top of a dresser, to be looked upon admiringly, especially by those who were old enough to recall the days when Lincoln served the nation and saved it from the devastations of its most tragic period of our history. This was not a coin to be spent. It was a coin to be saved and appreciated with each glance for its uniqueness since it was the first U.S. minted coin struck for circulation that featured the image of a non-fictional, prominent American leader. As inspiring as this new Cent was to so many, some thought that the initials appearing on the reverses of the coins first released, those of designer Victor David Brenner, should not have been placed on them so conspicuously.

Public reception of the newly issued Lincoln Cents, both on the east coast at the Philadelphia Mint and on the west coast at the San Francisco Mint, was equally enthusiastic. In due time, however, revelations regarding comparative mintage records emerged to confirm that those who acquired Lincoln Cent specimens from the Mint in San Francisco were quite a bit more fortunate than those who acquired theirs from Philadelphia, at least in terms of the greater potential value their S-Mint Cent had as a future collectible. The 2,309,000 Lincoln Cent pieces struck at San Francisco with and without their designer's initials appearing on the reverses amounted to not much more than just two percent of the number of coins similarly struck at Philadelphia.

Unsuspecting, but at least as fortunate, were the few who still possessed one or more of the second and last of only two Indian Head issues minted at San Francisco that year as well. Few were aware, until quite later in 1909, of the fact that the Mint there would continue to strike these now far less popular Indian Head Cents, and that it would do so at a quantity even smaller than that of the lower mintage, initialed variety of the new Lincoln Cent coin. So small, in fact, that its mintage would become recognized in due time as the smallest of all the other Indian Head Cents that had ever been struck. But, by then, these Indian Head Cents were already passé and "old change" in the eyes of most people who really cared little to have them

in their pockets, much less save them. Fortunately, for posterity's sake, there were a few astute and far-sighted collectors of contemporary coinage who did save some of those unwanted Cents.

Based on current population/census figures reported by PCGS and NGC, the number of 1909-S Indian Cents certified by both services is less than a third of the total number of certified 1909-S V.D.B. Lincoln Cent specimens recorded, even though the original mintage of 309,000 for the 1909-S Indian Cent is almost two-thirds of that for the 1909-S V.D.B. Lincoln Cent (484,000). This rather significant disparity in proportions suggests a considerably higher circulatory attrition rate for the 1909-S Indian Cent than for the 1909-S V.D.B.

No one can deny that the 1909-S V.D.B. Lincoln Cent is among the most revered of classic American collectible coins, and it deserves to be recognized as such due, in large part, to its historic and artistic significance. A 1909 V.D.B. Philadelphia version is even being used as a calibration target on one of the cameras on the Mars rover, Curiosity. But the term "rare" in reference to certain numismatic artifacts has quite often been stretched, and this particular coin has been esteemed by collectors, as well as by the non-collecting public, with almost as much awe-inspiring praise as that for a 1943 Copper Cent, 1913 Liberty Head Nickel, or an 1804 Silver Dollar. But this notion of rarity, as is often associated with regards to the 1909-S V.D.B. Cent, can rather quickly subside when walking about a bourse floor of a major numismatic exhibition event. The likelihood of a multiplicity of these coins being offered, even in high Mint State grade with Red color designation by just about every other dealer exhibiting their inventories, is almost as great as the

CIRCULATION & BETTY MORRIS  
ADVERTISING

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. First Class postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$70.00 for six months, \$127.00 for one year and \$209.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

chance of a sunset occurring by the end of the day. However, the probability that even a single basal Mint State graded 1909-S Indian or a 1909-S (No V.D.B.) Lincoln Cent is offered at such a venue, can often be slim. To search for such coins, especially in original Red colored-quality, can even be downright futile. While such coins do exist, most knowledgeable and savvy dealers or collectors who own one or both of these coins know better than to offer them today for a discount.

Until rather recently, premiums willingly offered for a 1909-S V.D.B. Lincoln Cent were not seen as justified for a 1909-S Indian. But, as certification and grading services' population figures availed themselves over time, the popular appeal for coins such as the 1909-S V.D.B. Lincoln Cent eventually transpired to coins that were long overlooked and underestimated in terms of their true rarity. That a combined total of only 6,807 1909-S Indian Head Cents have been certified by PCGS and NGC, compared to a combined total of 20,261 1909-S V.D.B. Lincoln Cents, representing a 1 in 3 ratio, should come as no shock. But, a qualitative, grade categorical breakdown of these combined population figures needs to be conducted to critically comprehend the scarcity factors of these two issues in relation to one another.

To date, only 2,184 of the 6,807 1909-S Indian Cents certified, just 32% are of Mint State quality, ranging in grades MS60 through MS67. These figures pale in comparison to the 9,183 Mint State 1909-S V.D.B. Lincoln Cents that are available within the same grade range amongst the 20,261 total certified examples known – a count comprising over 45%. When evaluating and comparing the pops for Gem quality examples for each coin, the availability issue is certainly more of a challenge in terms of finding a 1909-S Indian Cent, as there are only 451 such encapsulated specimens compared to the 2,528 1909-S V.D.B. slabs available in Gem grades. The difference becomes even more dramatic when comparing the availability of Gem graded, Red-designated specimens each coin provides the marketplace. Only 188 1909-S Indian Cents qualified for this grade/color designation, while as many as 937 examples of the 1909-S V.D.B. Lincoln Cents did so.

As we move our inquiry towards the higher end of the grading spectrum, there is a combined total of 299 '09-S V.D.B. Cents graded MS66 with 204 of these designated as Red, and 10 specimens graded MS67RD. Compare this count to the paltry 36 MS66 graded '09-S Indians, with only 24 of these designated as

Red, and just a single specimen graded MS67RD. Conclusively, the '09-S Indian/Lincoln V.D.B. survivorship ratio reflects only one for every five within the MS65RD to MS67RD grade range.

The Joshua and Ally Walsh specimens, considered to be the finest known examples of the 1909-S Indian and the 1909-S V.D.B. Lincoln Cents, both graded MS67RD by PCGS, were each sold at auction during the 2006 Florida United Numismatists (FUN) Show for an identical amount of nearly \$98,000 each. Another 1909-S Indian Cent specimen of same pedigree and grade, with somewhat similar eye-appeal, realized \$69,000 in April of 2009 during the Central States Numismatic Society convention auction in Cincinnati. More recently, a non-pedigreed 1909-S Indian Cent, graded MS66RD by NGC, sold in an auction for just over \$8,000 in February of 2012 in Long Beach, while a comparably graded 1909-S V.D.B. Cent, certified by PCGS, crossed the block for well over \$10,000 the following July during the Summer FUN Show in Orlando. Really nice examples of each coin in the MS65RD category arise at auctions with somewhat greater frequency, but the price disparities often remain. This past August in Philadelphia, a PCGS MS65RD '09-S Indian with Photo Seal sold at public auction for \$4,700, while a similarly certified MS65 '09-S V.D.B. with CAC approval fetched \$5,463 just two months prior in Long Beach.

Although most, if not all, collectors of Indian Head Cents are cognizant of the fact that the 1909-S issue represents the lowest mintage of the entire series, it often is not regarded with the same essential "key date" status or recognition as are other coins bearing lowest mintage distinction within their respective series. Too often, even Indian Head Cents enthusiasts overlook the scarcity significance of the 1909-S, as it has so frequently been overshadowed by popularized marketing promotions highlighting the virtues of owning an '09-S V.D.B. Lincoln Cent or other Indian Head Cent issues such as an 1864-L or an 1877, the latter of which has often been erroneously referenced as the "lowest mintage of the series" while, in actuality, its mintage is documented to be almost three times that of the '09-S. Despite a nearly equivalent overall combined certification population, an 1877 usually sells at public auctions and on bourse floors for as much as three to four times the price realized for a comparably graded specimen of the '09-S.

When considering all the appealing attributes of a 1909-S Indian Cent – a final year of issue coin, it being one of only two mint-marked subtype issues within the series, its low combined certification population – along with its distinction as having the lowest original mintage of all the other coins within its series, it truly should rank as among the most novel of American numismatic collectibles. The fact that it is still relatively affordable, in many cases, is just the "icing on the cake."

1909-S Cents	Original Mintage	PCGS & NGC Red Pops MS65	MS66-67
Indian	309,000	188	25
Lincoln	1,825,000	658	210
V.D.B.	484,000	937	214

# CDN GRAPH BOOKS

The *CDN Graph Books* are the only source for historic pricing data. Knowing the all-time high and the historic low since 1980 are crucial when making *Buying or Selling* decisions. Every serious numismatist will treasure the entire series of *CDN Graph Books*.

## FLYING EAGLE & INDIAN CENT

1980-2010/2011 (62 pages) \*Updated Nov-10

## LINCOLN CENT

1980-2010/2011 (74 pages) \*Updated Dec-10

## TWO CENT PIECE

1980-2010/2011 (24 pages) \*Updated Dec-10

## THREE CENT SILVER

1980-2010/2011 (53 pages) \*Updated Aug-10

## THREE CENT NICKEL

1980-2010/2011 (53 pages) \*Updated Aug-10

## SHIELD NICKEL

1980-2010/2011 (41 pages) \*Updated Dec-10

## LIBERTY NICKEL

1980-2010/2011 (67 pages) \*Updated Aug-10

## CIRC BUFFALO NICKEL

1980-2010/2011 (69 pages) \*Updated Oct-10

## UNC BUFFALO NICKEL

1980-2010/2011 (69 pages) \*Updated Oct-10

## BARBER DIME

1980-2010/2011 (76 pages) \*Updated Dec-10

## MERCURY DIME

1980-2010/2011 (84 pages) \*Updated Jul-10

## TWENTY CENT

1992-2012/2013 (22 pages) \*Updated Apr-12

## BUST QUARTER

1992-2011/2012 (60 pages) \*Updated Jan-11

## CIRC LIBERTY SEATED QUARTER

1992-2012/2013 (116 pages) \*Updated Mar-12

## UNC LIBERTY SEATED QUARTER

1992-2012/2013 (162 pages) \*Updated Mar-12

## BARBER QUARTER

1980-2010/2011 (75 pages) \*Updated Feb-11

## STANDING LIBERTY QUARTER

1980-2010/2011 (77 pages) \*Updated Dec-10

## WASHINGTON QUARTER

1985-2010/2011 (51 pages) \*Updated Feb-10

## EARLY HALF DOLLAR

1992-2012/2013 (150 pages) \*Updated Jan-12

## BARBER HALF DOLLAR

1980-2010/2011 (74 pages) \*Updated Dec-10

## WALKING LIBERTY HALF DOLLAR

1980-2010/2011 (66 pages) \*Updated Jul-10

## CIRC MORGAN DOLLAR

1980-2010/2011 (107 pages) \*Updated Sep-10

## UNC MORGAN DOLLAR

1980-2010/2011 (107 pages) \*Updated Sep-10

## DMPL MORGAN DOLLAR

1980-2010/2011 (49 pages) \*Updated Sep-10

## PEACE DOLLAR

1980-2010/2011 (49 pages) \*Updated Jul-10

## \$2½ INDIAN HEAD

1980-2010/2011 (24 pages) \*Updated Oct-10

## \$4 GOLD STELLA

1992-2012/2013 (13 pages) \*Updated Jun-12

## \$5 INDIAN HEAD

1992-2010/2011 (33 pages) \*Updated Jun-11

## EARLY HALF EAGLES

1992-2012/2013 (129 pages) \*Updated Mar-12

## \$5 LIBERTY HEAD, NO MOTTO

1992-2012/2013 (206 pages) \*Updated Mar-12

## \$5 LIBERTY HEAD, WITH MOTTO

1992-2012/2013 (239 pages) \*Updated Mar-12

## \$10 INDIAN HEAD

1980-2010/2011 (41 pages) \*Updated Nov-10

## EARLY EAGLES

1992-2012/2013 (26 pages) \*Updated Mar-12

## \$10 LIBERTY HEAD, NO MOTTO

1992-2012/2013 (119 pages) \*Updated Mar-12

## \$10 LIBERTY HEAD, WITH MOTTO

1992-2012/2013 (252 pages) \*Updated Mar-12

## \$20 SAINT-GAUDENS

1980-2010/2011 (62 pages) \*Updated Sep-10

## \$20 LIBERTY HEAD TYPE 1, NO MOTTO

1992-2012/2013 (80 pages) \*Updated Mar-12

## \$20 LIBERTY HEAD TYPE 2, WITH MOTTO

1992-2012/2013 (66 pages) \*Updated Mar-12

## \$20 LIBERTY HEAD TYPE 3, DOL ON REV

1992-2012/2013 (173 pages) \*Updated Mar-12

## MINT STATE TYPE

1980-2010/2011 (99 pages) \*Updated Aug-10

## PROOF TYPE

1980-2010/2011 (54 pages) \*Updated Aug-10

## GOLD TYPE

1980-2010/2011 (69 pages) \*Updated Aug-10

## EARLY GOLD TYPE

1992-2012/2013 (76 pages) \*Updated Jul-12

## PROOF GOLD TYPE

1980-2010/2011 (.7 pages) \*Updated Oct-10

## SILVER COMMEMORATIVE

1980-2010/2011 (98 pages) \*Updated Aug-10

## GOLD COMMEMORATIVE

1980-2010/2011 (43 pages) \*Updated Jul-10

# Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

## 8 GREAT REASONS TO JOIN TODAY!

### 12 ISSUES OF NUMISMATIST.

Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

### BORROW THE BOOK BEFORE YOU BUY THE COIN.

The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

### LEARN WHAT THE EXPERTS KNOW!

The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

### SAVE MONEY.

The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

### INSURANCE.

Insure your collection for as little as 50 cents per \$100 of value. Your homeowners' policy can't match the rates or the coverage.

### GRADING AND CONSERVATION SERVICES.

Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

### ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.

Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

### MEDIATION SERVICES.

Mediation for numismatic disputes is available through the ANA.

Join by phone, 800-514-COIN (2646),  
or online at [www.money.org](http://www.money.org)

### Barber Quarters

#### Valuable Coins, Invaluable Lessons

By Leonard Rizzo

First and foremost, I'd like to say that I am only a coin collector, and at 47, I've been enjoying this hobby for about 42 years. I'm not a dealer or a "coin salesman" and I've never taken a course on grading coins. I'm writing this article to fellow collectors, as I relate to the guys who go through rolls of Pennies for a few "Wheaties" or rolls of Half Dollars for a couple of 40% Silver leftovers. Moving up to collecting a challenging set for me epitomized the cliché "on-the-job-training." I've been working on Barber Quarters for about five years, and I know I always will assemble these sets. At the beginning, I had no idea what I was getting into, and the challenges I expected (The Big Three) were much different than the ones I actually encountered.

My quest started innocently enough, on my lunch break at a new job, in fact. I drove a mile down the road and stumbled upon a coin shop. It was a small store, buying and selling Gold mostly, and there were two display trays behind the locked glass. And I went ahead and did what most foolish collectors do...I had money in my pocket, and I wasn't leaving without a new coin, even if it wasn't a good buy. This time I got a little lucky. I spied a raw 1899 Quarter in a 2x2 cardboard flip, dubbed XF45. I thought it had a nice look and I bought it for \$75. I had a brand new PCGS membership and a voucher for eight free grades, so I sent it in, along with seven other coins that I thought were better than they actually were. When five of them came back in body bags, I got my first wake-up call as a collector, but the 1899 Quarter came back AU58, and I was feeling sort of smart!

Before my excitement wore off, I dug deep into my stash of raw Quarters from years back, and I remember pulling out a very nice 1896-O. I sent it in with my next submission, and it came back in a body bag as well; questionable color, I believe. I was so disappointed, as I thought this one was quite nice. I decided to auction this coin, still not aware how tough this date actually was (the coin was AU), and I was shocked to have sold it for about \$500 more than I paid for it. It made me wonder, was there really something wrong with it? The lesson here was that even the grading companies don't always get it right. That's not meant to be a knock, but I liked that coin, and I should have kept it because I liked it instead of selling it because they didn't like it.

I promptly made my next novice boo-boo. I started collecting Barber Quarters with no game plan and no knowledge. I was looking for any date and mintmark that I didn't have in a holder. I bought a lot of problem coins and coins with poor eye appeal to start filling the holes. I bought raw coins for high dollar amounts that didn't have a chance to grade. I just didn't have the eye yet. After about a year I had about 30 Quarters, and I thought I was doing pretty well, but I really wasn't. I had a small collection of problem coins that I paid too much for.

My 1896-S Quarter, graded PCGS XF40, will always be my favorite coin that I own. I saw it up on eBay and had contacted the seller. We had a pleasant conversation and he answered all my questions, and then we struck a deal. At the time I thought I was paying too much; AU dollars for an XF coin. I justified it because I had none of the keys, few nice semi-keys, and this one had a lot of eye appeal. I also knew that I had to step up my

collection sooner or later. What I paid \$6,100 for is still paying dividends today. The friend and mentor that came with this purchase was a priceless bonus.

Had I known the importance of finding a mentor from the get-go, I would have sought one out sooner, and probably wouldn't have purchased many of my first 30 coins. I've probably replaced most of them by now. Simply stated, it's the most valuable asset you can have. I advise you to find one before starting any tough collection. A good mentor will raise your overall collecting skills a few notches, steer you away from problem coins, and even keep you from overpaying for the good ones. I started looking at my collection through his eyes, and adopted his philosophies when evaluating and purchasing new coins. I began to realize that coins with issues needed to be passed up, no matter how badly I thought I needed them. I also learned what a challenge it is to find beautiful, problem-free Barber Quarters, especially semi-key coins, within any price guide's range. I started doing a lot more research and talking to more and more people about my passion.

Onward I pressed, and little by little I picked up some of the semi-key dates. Now here is where Barber Quarter collecting gets interesting! I honestly had no idea how tough it is to find quality semi-key Barber Quarters (without paying through-the-roof.) My opinion is that half in the set are semi-keys. That might sound like a stretch, but consider what I say. I'm not talking about just finding the coin. I'm talking about finding one that's worth owning, a nice, problem-free, original coin with some eye appeal. I'd also say that about six to eight of those semi-keys are so difficult to find, that they would be key dates in any other sets. Try buying a 1901-O, 1914-S, or an 1897-S, XF or better, problem free, and try paying price guide money for it. It would be hard enough to locate one!

I remember seeing a 1909-O PCGS AU55 a few years back. It sold for about \$2,600, easily five times price guide money. I was incredulous and I immediately called The Mentor and told him what

I had seen. When he told me that he had purchased the '09-O, I really started scratching my head. I had seen the coin and could have easily purchased it, but I looked at a price guide that told me it was a five hundred dollar coin. I thought the seller was crazy, but little did I know that I was learning another lesson. Since then I've watched 1909-O Quarters very closely. I've seen another AU55 sell for about \$3,800. I purchased my 1909-O PCGS AU55 for \$4,250 last January. It's a beautiful coin with a Gold CAC sticker, and a light cheek scratch away from being Uncirculated in my opinion. Most 1909-O Quarters that I have seen (in holders) have problems: scratches, scuff marks, dings and hits.

While adding some of the semi-keys, I also found myself replacing more and more coins in my set, trying for a certain look. I started buying duplicate dates, just because I liked the eye appeal. Soon I found myself actively building three sets at the same time, XF, AU, and MS. Now this will be a lifetime goal that I can realistically never attain with my means, but I'm going to get as close as I can and enjoy every minute of it and every coin that passes through my hands!

To discuss price guides a bit, I'd break up the Barber Quarters into five categories: Common Dates, Not-So-Commons, Gettable Semis, Sleeper Semis, and Keys. For brevity's sake, I'll focus this date-by-date analysis on about 30 semi-keys, in XF and AU condition and up to about MS63. I'll briefly talk about the others in groups. I think it's only fair to say that while many price guides show estimated values for raw coins, they will acknowledge a certified coin will bring a premium. The problem is that many col-

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight-unseen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. First Class postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$70.00 for six months, \$127.00 for one year and \$209.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

www.greysheet.com • cdn@greysheet.com

lectors want to purchase graded coins for security, and there is a great disparity between a raw price guide, which may not differentiate between an AU50 (XF-slider) and an AU58 (MS63 slider). Savvy dealers will try to buy your coins using one set of prices and sell them using the other. The great collector challenge is to buy like a dealer! I have a long way to go to master that skill.

The commons may still be found fairly close to the guides, but I'm seeing nice AU commons in the \$200 range now. The Not-So-Commons are a different story. A few examples here are the 1896, 1910, 1907-O, 1906-D, and the 1903. I'd say it is extremely difficult to find nice examples of these dates at common prices. The key dates are reasonably priced in mid-grades, if you can find them. However, I think they are extremely overpriced in low grades, up to VG, where the populations are very high despite low mintage. I would avoid these coins. Low mintage does not necessarily mean rare, though conditional rarities certainly do exist within the Barber key dates.

So that leaves me at the semis, both gettable and the sleepers, the meat and potatoes of the Barber Quarter series. Here's my humble take on 30 of them, date-by-date:

**1892-S:** I think this is an overrated date, and this is one that is overpriced in my opinion.

**1893-S:** (Sleeper) This is one of my favorites and an underrated "S" Quarter. Nice AUs are going north of \$400.

**1895-O:** Priced like a Not-So-Common, I'd say it is a much better date that will cost quite a bit more. I have not seen many high-end examples.

**1895-S:** A bit underrated, and nice ones should be scooped up. I'd say it is underpriced.

**1896-O:** A personal favorite. I've had quite a few, so they are there, but they will cost you! Priced fairly in most guides.

**1897-O:** Double the price guides here if you find a sweet one without issues. No matter the denomination, the '97-O is a much better date.

**1897-S:** Very tough and a stopper in many collections. Extremely undervalued in price guides.

**1898-O:** A tough "O" mintmark, but a gettable date. Still, expect to pay a nice premium.

**1898-S:** (Sleeper) This date, along with the '99-S, has very low pops in mid grades and is underpriced in the guides. Very nice AUs bring triple. Rarely offered in Mint State.

**1899-S:** (Sleeper) and another personal favorite. Very nice AUs bring four figures.

**1900-O:** I won't say sleeper, but I love this date. Can't get enough of them! Priced a little too low.

**1901-O:** (Sleeper) Pay the premium for any problem free XF or AU, and yes, there will be a healthy premium.

**1902-O:** This date, along with the '03-O, tends to get less attention because the '01-O and '05-O are so tough. I like them both better than the '04-O. Priced fairly enough, I'd take any nice ones.

**1902-S:** Again, I'd say along with the '03-S, this date flies under the radar. Both are slightly underrated and underpriced in my opinion.

**1903-O:** See 1902-O

**1903-S:** See 1902-S

**1904-O:** A popular date, but I've seen many come and go and I'd say the guides are accurate, if not overpriced. Probably a bit overrated.

**1905-O:** (Sleeper) A nice '05-O will cost significantly more than you would expect. Call me if you find a nice one!

**1905-S:** Not as tough as the '05-O, but so underrated and again, holler if you have an extra! Seriously, take a problem free '05-S if you can find one and pay a little extra.

**1906-O:** I really like the '06-O. I'm not sure why the guides are so low. The Uncirculated populations will sometimes keep the Circulated coin prices down, even though they are less common than the Uncs.

**1907-S:** Tough in '55 and '58 but gettable from XF to AU53. Priced fairly up to mid AU, then undervalued.

**1908-S:** A collector's favorite and tough to find problem free. Price guides are way off over XF.

**1909-O:** (Sleeper numero uno) Impossible to find within any price guide's range. Hoarded by the shrewd collectors awaiting the inevitable adjustment.

**1909-S:** I really like the '09-S. Undervalued in AU thru MS63.

**1910-D:** Tough, but not impossible. I'd say slightly underpriced for premium examples.

**1911-D:** A low mintage coin but available, usually overpriced for the population.

**1911-S:** This one doesn't get a lot of attention, but tougher than you'd expect. I personally like the '11-S better than the '11-D for the money.

**1912-S:** (Sleeper) Extremely underrated and I'd say triple the price guides.

**1913:** Way overrated and overpriced. A low mintage but not difficult to find, and should be a Not-So-Common.

**1914-S:** (Sleeper) Low mintage and low

pops. Nice ones are few and far between. Be prepared to double the price guides for a PQ example.

There are still many challenges I face in the Barber Quarter series, and many upgrades to be found. Regrettably, I've traded away some very nice pieces, but sometimes the lesson comes when you lose something, not when you get something. I still haven't found a nice 1913-S, and I hold a VG8 for which I overpaid and probably can't sell. I've never had a 1914-S better than XF40 that I like, and I can use a nice '95-O, '01-O, and '05-O as well. I know that they will come in good time. Patience, patience, patience!

Recently I've expanded my collection to include varieties. Unfortunately, there are no price guides to value varieties. Frankly, I don't think there is much interest either, but I'd like to be the guy to have them all some day. I'm not sure that has ever been done; a complete set with all the major varieties. Right now I proudly hold an 1892 DDO, two 1907-S/S, a 1907-D DDO/RPM, and a 1911-S RPM. I feel that it makes this special set just a little spicier!

I'd like to thank all of my new friends who have helped me along the way. You all know who you are, but you'll never know how much I appreciate everything!

# Buying or Selling Certified Coins?

If you answered yes, then you need to subscribe to the Certified Coin Dealer Newsletter — immediately. The CCDN, or *Bluesheet*, is the only publication that reports the buying (Bid) and selling (Market) prices of third-party graded coins. PCGS, NGC, ANACS, ICG, SEGS and others are all accurately and independently reported. CAC approved slabs and Plus grades are now listed in the 3rd issue of every month. You need to know the dramatic differences in prices for each of the major grading services if you want to successfully buy or sell in today's market. The actual money you save from making informed buying and selling decisions can often pay for the cost of a subscription many times over. Subscribe today for at least 6 months and receive a free copy of the 2012 Numismatic Dealer Directory — over 140 pages including: coin dealers, auction houses, supplies, shows and much more.

- ① Read in-depth market analyses and insights to trading certified coins.
- ② Weekly charts and graphs for an instant snapshot of the current market.
- ③ All major third-party grading and certification services are covered.
- ④ Know what slabs are hot before the next show or auction.
- ⑤ Be aware of the price differences between the grading services.
- ⑥ See what coins are actually selling for at public auctions.
- ⑦ CAC & Plus grades covered in the 3rd issue of each month.

## Can you really afford to ignore all of this valuable information?

### CERTIFIED COIN DEALER newsletter

CCDN — a weekly report on the Sight Unseen certified market published by the Coin Dealer Newsletter

Vol. XXVI No. 26

#### Walkers Slow Su

The summer slowdown is still in effect with dealers breathing a sigh of relief while going on vacation. Preparing for the July 7-9 in Orlando, Florida Heritage show, with several anchors for the bid, including Little Rock Part II, Jersey Dimes, and the late date and high grade Mercury Dimes. Many of the late date and high grade Mercury Dimes that appear in on-line auctions are being quickly scooped up by bargain hunters. Wholesale buyers are seeing coins at higher than the levels for which these coins are selling. Over examples grading MS66FB MS67PB sold this week alone for below standing offers once again leaving money on the table rather than the levels for which these coins are selling. Over Summer FEN show Heritage auction next week, an event that about 1,000 collectors are expected to attend, the last one to sell in this grade was in late January and much excitement. The last one to sell in this grade was in late January and much excitement. The last one to sell in this grade was in late January and much excitement.

# The Cardinal Collection

## Numismatic History in the Making

Stack's Bowers Galleries is honored to present yet another distinctive collection that is bound to make numismatic history. A collection long recognized as one of the most significant ever assembled in the history of U.S. numismatics: The Cardinal Collection.

The core of the Cardinal Collection is comprised of famous silver coin rarities from the earliest years of the United States Mint, as well as a collection of large cents that holds No. 1 rankings in multiple categories on both the PCGS and NGC Set Registry listings. This superb collection is bound to realize numerous record prices in our January 2013 Americana Sale. Highlights of the unreserved Cardinal Collection include:

**1793 Chain Cent, S-2, MS-65 BN (PCGS)** — One of only four Gem Mint State 1793 Chain cents certified by PCGS; easily among the finest of all die varieties known to exist.

**1793 Wreath Cent, S-9, MS-69 BN (PCGS)** — The single highest graded 18th century U.S. coin of any date, variety or denomination.

**1792 Half Disme, MS-68 (NGC)** — The single finest certified 1792 half disme known to PCGS and NGC, complete with a notable pedigree that extends directly back to David Rittenhouse, the first director of the United States Mint.

**1794 Flowing Hair Silver Dollar, Specimen-66 (PCGS)** — Prooflike and superb, this is "the coin" in the Cardinal Collection. The world's finest 1794 dollar, this remarkable specimen is also believed to be the first silver dollar struck by the United States Mint.

The Cardinal Collection is presented to you by Stack's Bowers Galleries — a name recognized for bringing you the most prominent collections known to the numismatic community. Be a part of this historic event by consigning to our January 2013 Americana Sale alongside this remarkable collection.

The Cardinal Collection will be featured in the Rarities Night Auction - space is limited so consign your rarities today to cross the auction block alongside this history-making collection!

The Stack's Bowers Galleries New York Americana Sale | January 21-25, 2013 | Consign by November 30, 2012

### If you don't own gold, it's not too late.

With gold increasing over 480%\*\* since 2000, imagine the position you'd be in today looking at those numbers if you had owned a large amount of gold over the last 10 years. Now look at the next 10 years - many analysts recommend 5% - 25% of your total portfolio be in physical gold and they expect gold to continue its climb to \$2,000 per oz. and beyond!

Compiled by market analysts  
& award winning gold experts,  
get the comprehensive insights  
you need to confidently  
diversify, strengthen, & secure  
your portfolio  
with gold.

# Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

## 8 GREAT REASONS TO JOIN TODAY!

### 12 ISSUES OF NUMISMATIST.

Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

### BORROW THE BOOK BEFORE YOU BUY THE COIN.

The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

### LEARN WHAT THE EXPERTS KNOW!

The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

### SAVE MONEY.

The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

### INSURANCE.

Insure your collection for as little as 50 cents per \$100 of value. Your homeowners' policy can't match the rates or the coverage.

### GRADING AND CONSERVATION SERVICES.

Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

### ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.

Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

### MEDIATION SERVICES.

Mediation for numismatic disputes is available through the ANA.

### **The National Silver Dollar Roundtable 30 Years Later!**

By John W. Highfill

This year is the 30th anniversary of the National Silver Dollar Roundtable. The U.S. Silver Dollar is by far the most popular American coin. Its vast appeal is the best in all of numismatics. The National Silver Dollar Roundtable's (NSDR) index of dealers are professionals in all types of Silver Dollars. These can and may include each and every Silver Dollar minted. They include: Draped Bust, Liberty Seated, Trade, Morgan, Peace, Eisenhower, Susan B. Anthony, Sacagawea, Native American, Gold Dollars, Gold Commemoratives and the ongoing current U.S. Presidential Golden Dollar series. Morgan Dollars have been and continue to be much stronger than Peace Dollars. However, both series continue to be collected in every grade from good to MS67+. Collectors seem to acquire the lower graded coins for their collections, while investors go for the higher Mint State grades. Many of the latter try to obtain the finest known examples available in the marketplace.

The National Silver Dollar Roundtable was born out of the National Silver Dollar Convention. There were special NSDR "Dollar Days" held at each of the National Silver Dollar Conventions. The first "Dollar Day" was held at the 7th NSDC on November 12, 1986 in St. Louis, MO. These special show days were similar to the PNG day at other national conventions. These were a special one day bourse show for members of the NSDR only. These shows were very successful. Not only was the convention a gathering of Silver Dollar experts, it was one of the largest coin shows in America. The ANA, FUN, TNA, CSNS, Long Beach and Baltimore Expos are among the largest and best coin shows to visit and find Silver Dollars. There are, however, many other smaller coin shows that have NSDR dealers in attendance.

The NSDR was founded on November 12, 1982 at the Third National Silver Dollar Convention. The location was the Astro Village Hotel in Houston, Texas. Since its foundation, the NSDR has evolved into the second largest numismatic dealer organization in the world!

The NSDR is a non-profit educational organization. It is dedicated to promoting all United States Silver Dollars. The objective of the organization is to advance the knowledge of numismatics, especially for U.S. Silver Dollars, along educational, historical and scientific lines. The NSDR assists in bringing about cooperation among all persons interested in collecting, buying, selling, grading, exhibiting and preserving U.S. Silver Dollars, through educational forums, social meetings, articles, newsletters, and other publications of numismatic interests. NSDR educational seminars have featured many of the industry's most notable leaders, and represents the industry's most knowledgeable Silver Dollar dealers. "The Silver Dollar Specialists" is the official slogan for the NSDR. We have the very finest Silver Dollar dealers in the entire world and are very proud of that accomplishment.

Remember, "knowledge is king". We are also proud to be one of the founding members of the Industry Council for Tangible Assets (I.C.T.A.). We are still on their board while promoting honesty and integrity. The NSDR publishes a journal annually with many advertisers and articles for everyone. The NSDR is the only exclusive Silver Dollar organization in the world and growing each year! Any dealer that wishes to join and meets the criteria may go to our website to apply. The NSDR adheres to a very strict code of ethics that also is listed and defined on its website.

As early as 1975, there was only the MS65 grade listed in *the Coin Dealer Newsletter* (CDN) for Silver Dollars. In August of that year, the CDN started listing both the MS60 and the MS65 grades for Silver Dollars.

At this time, the price differences between MS60 and MS65 could be nearly 3 times between the two grades. In September 1980, the CDN began listing the MS63 grade. This solved a lot of the disparities in the price fluctuations. But the differences were still substantial between the MS63 and the MS65 grades. The NSDR had its own "Pricing Guide" with its initial quarterly journal. (NOTE): The NSDR was first in implementing the MS64 grade pricing within the entire Silver Dollar prices. This landmark grade was board approved in November 1984. It was then introduced and first published in the National Silver Dollar Pricing Guide, Volume II, No 1, dated November 1984. We are very proud of this landmark numismatic accomplishment. The MS64 grade was later posted in March of 1985 in the *Greysheet* and remains to date. This extra grade finally put most coins in direct dollar value proportional to their "condition rarity". The NSDR is constantly

trying to improve our organization with the goal of numismatics through experience, knowledge and education.

On the NSDR website, [www.nationalsilverdollarroundtable.com](http://www.nationalsilverdollarroundtable.com), you will find many categories including a list of dealers, addresses, email addresses and phone numbers. You may contact any dealer through his own email or link. Many of our members have their own online store. Each member is a Silver Dollar specialist, and their online stores will reflect their available inventory. There are educational articles, seminar information, lists of the current officers, past members, in memoriam members, archive photos, videos and membership application. Listed on the website are multiple educational videos of NSDR seminars featuring guest speakers. These seminars were and are exclusively for education regarding U.S. Silver Dollars. Many seminars are for collecting quality, rarity and VAMs. Most were held at one or more of the 20 annual National Silver Dollar Conventions held in Columbus, Memphis, Houston, St. Louis, Chicago, Las Vegas and Dallas. Other seminars can currently be found at the three Long Beach Coin Expos, the Baltimore Coin Conventions and the two FUN conventions in Florida.

The NSDR also boasts many Silver Dollar authors. These expert writers are a virtual "Who's Who" in numismatics. Some have written encyclopedias, books, CDN articles, ANA essays and multiple other articles throughout the years. Many of these past and present authors are NSDR Lifetime Achievement Award Recipients and seminar guest speakers. Leroy C. Van Allen was the co-author along with A. George Mallis in creating the VAM standard for Morgan Silver Dollars. This

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market, such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. First Class postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$70.00 for six months, \$127.00 for one year and \$209.00 for two years. Phone: (310) 515-7369

www.greysheet.com • cdn@greysheet.com

inaugural book on VAM Silver Dollars is by far the first word on Morgan varieties. This reference book has set the bar for VAM Dollars. Since this book was first released, the Society of Silver Dollar Collectors has been formed for Morgan and Peace Dollar variety collectors. This organization, spearheaded by Jeff G. Oxman and many others, has through the years, found multiples of new Dollar varieties. The major VAM Dollars and some of the most popular are: 1879-S Reverse of '78; 1878-P Reverse of '79; 1882-O/CC; 1887-P "Alligator Eye"; 1888-O "Hot Lips"; 1891-CC "Spitting Eagle" and the 1900 O/CC, to mention a few.

Many readers are familiar with this author's own encyclopedia on Silver Dollars. It is both an extensive encyclopedia along with an anthology of the entire numismatic community. It has 50 guest authors, that in combination, cover virtually everything you could possibly know on all types of Silver Dollars. Many of the guest authors themselves have their own numismatic writings on Silver Dollars. John Dannreuther is one of those authors. His expertise on Liberty Silver Dollars is second to none in the industry. There are too many authors to list here. Each has his own expertise. Carson City Morgan Silver Dollars are always one of the most popular collected Dollars. In my encyclopedia there is a list of each date and quantity available. The most common dates available are the 1882-CC, 1883-CC, and 1884-CC Dollars. Only one 1889-CC Morgan Dollar was released from the great GSA hoard. An NSDR Life Member is the current proud owner of this coin. The 1889-CC GSA has been since graded by NGC with a grade of MS62PL. However, there were none of the 1893-CC Morgan Dollars released from the GSA hoard at all. Currently, a new GSA Carson City Dollar book has been written by three NSDR authors — Adam Crum, Selby Ungar and Jeff G. Oxman. This current, excellent book is available and is a must own reference.

The world's finest Silver Dollar collection has changed hands many times through the years. Multiple dealers have had this self-proclaimed title. Back in the earlier years before the grading services, Amon Carter was known to have this title. However, the most recent time it was truly recognized was the Jack R. Lee collection. Jack was vigilant in his pursuit of his collection. Jack has since passed on and the title currently lies with Lloyd Gabbert. His collections are all certified by either PCGS or NGC. Time will tell who the world's finest collection will belong to as years go by. But one thing is sure; the sheer competition to own the finest will always be there!

The serious Silver Dollar collector should always locate and acquire the better dates, if not the rarest dates in that series *first*. The reasoning for this is that many collectors may eventually run out of money by buying the common dates first. This could lead them to not completing their collection and lose interest in collecting altogether. If you get the key and semi-key dates first, you will usually continue, when funds become available, to finish your set of Dollars. Remember, the common dates are just that, common. They are always available somewhere. Most Silver Dollar collectors collect the Morgan Dollar series. This is closely followed by the Peace Dollar series. More serious collectors may go after the tougher and rarer types of Silver Dollars. They may include the following: Gobrecht, Draped Bust, Liberty Seated and Trade Dollars. These are more specialized and may require a need to contact one of the Silver Dollar specialists. Most of these types of Dollars are often only available at either major coin conventions or auction houses. Some collector's become investors. This is for them to decide; however,

most are collectors at heart. Every collector should seek the coins they desire. Some may collect Circulated and others the Uncirculated Dollars. The other is the very serious collectors that have to have the finest known. These collectors usually are not able to find their needs at their local coin dealer. Again you may have to go to various coin shows located weekly around the country. If they are not able to find what they need at the national coin conventions, they can find many Dollars with the major auction houses. There are also individual dealer's websites. Others can find their Dollars online via eBay.

Many Morgan and Peace Dollars are popular mainly because of their unique status. Some of these examples are the Morgan 1878 series. This is the first year of issue and has many varieties. The 1921-D is the only Denver Mint Morgan. Next would be the magic "CC" (Carson City) Morgans. The first year issue 1878-CC, 1889-CC (Rarest) and the 1885-CC are the most popular. Other unique Morgans include the 1904-O and 1921-P, D, S series. Then there are the VAM (Van Allen-Mallis) Type Morgans. These are mainly multiple die variety Dollars. There are many different VAMs.

The serious collector may wish to obtain them all. However, most collectors seek the popular ones. Some of the most popular VAM dates are: 1878-P 7TF, 1878-P 8 TF, 1878-P 7/8 TF, 1879-CC Capped Die, 1879-S Rev '78, 1879-P Rev '78, 1880-CC Rev '78, 1882-O/S, 1886/7-P, 1886/7-O, 1888-O, and the 1900 O/CC. The Peace Dollar doesn't offer that many Types, but the 1921-P (first year issue) and the 1935-P and S (last year of issue) are the favorites. The key to this series is the 1928-P. You should keep in mind that coin companies run many of the above Dollars constantly as promotions. This keeps the demand up. One of the most popular promotions is the first and last dates in each series. This would be the 1878-P and the 1921-P Morgans. Peace Dollars would be the 1921-P and the 1935-P.

The NSDR has held its annual Awards Banquet every year since 1982. There is a dinner followed by the awards presentation. Each standing president will host this event. Randy Campbell is the NSDR Master of Ceremonies and honors the awards at each year's banquet. There are limited seats available. Life members are given one ticket each. There is never an empty seat. This annual gathering is for the honor of new members, Life members, the President's Award, Man of the Year, Woman of the Year and the highest achievable honor: the NSDR Lifetime Achievement Award. The first Lifetime Award was presented in 1989. The NSDR has special committees and chairmen for all needs. They are as follows: Finance, Advertising, Ethics and Arbitration, Banquet, Seminars and Education, NSDR Journal, NSDR Website, Video Specialist, Master of Ceremonies, Show Reporter, Membership, Counsel and ICTA. Each board member that is on a committee is to meet prior to the three board meetings held annually. At these board meetings, each committee is to give their findings for the board to vote on.

In summary, not every coin dealer or professional numismatist is a Silver Dollar expert. Therefore, buying, selling and/or collecting Silver Dollars can be made easier by contacting any NSDR Silver Dollar specialist.

# Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

## 8 GREAT REASONS TO JOIN TODAY!

### 12 ISSUES OF NUMISMATIST.

Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

### BORROW THE BOOK BEFORE YOU BUY THE COIN.

The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

### LEARN WHAT THE EXPERTS KNOW!

The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

### SAVE MONEY.

The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

### INSURANCE.

Insure your collection for as little as 50 cents per \$100 of value. Your homeowners' policy can't match the rates or the coverage.

### GRADING AND CONSERVATION SERVICES.

Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

### ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.

Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

### MEDIATION SERVICES.

Mediation for numismatic disputes is available through the ANA.

Join by phone, 800-514-COIN (2646),
